Updated Resources for CalAIM and NX — **Available Now**

Who: All Staff

Details: The following resources for CalAIM and NX have been updated:

- Avatar NX Updates and Tips
- Service Code Charge Codes FAQ and Cheat Sheet – The updated version is attached to the QM Lightbulb email dated 8/1/2023. The link under the "CalAIM Information" tab on the QM website will be updated with this new version in the next day or so. **IMPORTANT UPDATES. Please replace your current versions with the updated version.**
    - A new service code for reviewing external charts has been added.
    - Individual Therapy max time has been updated to 67 min from 60 min.

Updated Policy 19-08: Credentialing and Re-Credentialing Providers — **Effective Now**

Who: All BHRS Staff

Details: Update regarding email sent by Scott Gruendl titled "Policy Update - New Form for Persons Completing the Incompatible Activities Form" sent on 7/19/2023.

If staff have outside employment, staff should complete Attachment H and send to their supervisor and manager for review/approval. Once Supervisor/Manager have approved, send to Personnel Department to upload into Workday.

Collective Medical (Alerts for ED Visits) — **TBD**

Who: All Staff

Details:

BHRS IT and QM are continuing to work hard to get staff access to the Collective Medical alert system for ED visits for clients (similar to the SMMC PES Alerts staff currently get for clients who go to SMMC PES, but this will cover all EDs, not just SMMC PES)!

We are about to begin testing this new feature and will keep staff updated on when this feature will be implemented for all staff.

BHRS CalAIM Screening and Transition Tool Training — **TBD**

Who: All Mental Health Staff

Details:

A BHRS workgroup is currently working to determine the best way to incorporate the CalAIM requirements for the use of the screening and transitions tools into our BHRS system and workflow. A training will be developed once this workflow is finalized.
