

National Day of Prayer

For Behavioral Health and Understanding

1 in 4 people have a mental health condition but less than half get the help they need.

We are ALL touched by mental illness. Only with the guidance, prayers and actions from our faith and behavioral health networks working together, will our communities reach better mental health and well-being.

At the Day of Prayer for Behavioral Health and Understanding, faith and secular leaders will join hundreds of events around the country to publicly recommit ourselves to replace misinformation, blame, fear and prejudice with truth, inclusion and love in order to offer hope and support to those most in need.

Community members, consumers, family members, faith community and behavioral health providers all welcome!
