I. Introduction

Inmar submits this Stewardship Plan (“Plan”) for Unwanted Drugs in compliance with the San Mateo County Safe Drug Disposal Ordinance numbers 04736 and 4302. (“Ordinance”). All capitalized terms not otherwise defined shall have the same meaning as in the Ordinance.

Inmar’s Stewardship Plan will provide a comprehensive safe drug disposal stewardship program that will include compliant drug collection methods supported by outreach and education programs to increase resident awareness and participation. The Stewardship Plan program will provide safe, secure, and convenient access on an ongoing basis for residents across the county and will be funded by participating covered manufacturers. The program will also provide reporting on collection metrics and results of resident education and outreach campaigns.

Some of the highlights of our plan are as follows.

- **Drug Collection Systems**
 - **Receptacle Service:** Turn-key program with DEA- and DOT-compliant processes and materials
 - **Mail-back Envelopes:** Available by request via a website or toll-free telephone number
- **Education & Outreach:** Strategic deployment of Inmar’s media assets and expertise, as well as far-reaching retail pharmacy relationships, to drive program awareness and participation
- **Annual Reporting:** Insight into required collection and outreach metrics.

II. Contact Information

✓ Ordinance 04736 Section 4.116.040(a)

The following producer(s) have agreed to participate in Inmar's stewardship plan in Santa Cruz:

Unichem Pharmaceuticals, USA
Sanjeev Parab
Director, Finance
1 Tower Center Boulevard, Suite 2200
East Brunswick, NJ 08816
Email: sparab@unichemusa.com
Phone: 732-253-5954

Strides Pharma, Inc.
Nathan Walten
Sr. VP Commercial Operations, US
2 Town Center BLVD, Suite 1102, East Brunswick, NJ 08816
Email: Nathan.walten@stridesusa.com
Phone: (609) 773-5000

For additional questions, contact:

Inmar Plan Liaison:

Nick Massaro,
Manager, Consumer Drug Take Back Solutions
635 Vine Street
Winston Salem, NC 27101

Phone: 336-770-1992

III. Collection System for Unwanted Covered Drugs

✓ Ordinance 04736 Section 4.116.040(b)

A. Convenience

✓ Ordinance 04736 Section 4.116.050(b)(1)

✓ Ordinance 04736 Section 4.116.050(b)(3)

Inmar will set up a collection system that provides convenient and equitable access to residents across the county as outlined in the Ordinance 04736 Section 4.116.050(b)(1). Drop-off sites are searchable to residents in Google Maps, simply by typing “Drug Disposal,” or other similar phrases in the Google Maps applications.

Pursuant to Ordinance 04736 Section 4.116.050(b)(1) Inmar will seek to establish a minimum of one drop-off site for every 20,000 residents throughout the county, geographically distributed to provide reasonably convenient and equitable access. We will ensure there is never less than five drop-off sites per Supervisorial District. As required by Ordinance 04736 Section 4.116.050(b)(3).

The below charts represent Inmar’s plan to meet the convenience standard described above. The data used comes from the County of San Mateo 2017-2019 Profile from the City Manager’s Office. According to known population data, Inmar will plan to provide a minimum of 51 drop-off sites in the County. Drop off sites will be established across all 5 supervisorial districts and in unincorporated areas based on population. As presented, Inmar will exceed the minimum requirements of 5 drop-off sites per district.

Districts	# of Kiosks (minimum)
District 1 – Dave Pine	10
District 2 – Carole Groom	9
District 3 – Don Horsley	11
District 4 – Warren Slocum	9
District 5 – David Canepa	12
Total	51

City	Population	Supervisorial District	# of Kiosks (minimum)
Atherton	7,167	3	1
Belmont	27,218	2,3	2
Brisbane	4,282	5	1
Burlingame	30,459	1	2
Colma	1571	5	1
Daly City	106,562	5	6
East Palo Alto	29,662	4	2
Foster City	33,477	2	2
Half Moon Bay	12,657	3	1
Hillsborough	11,451	1	1
Menlo Park	33,449	4,3	2
Millbrae	22,795	1	2
Pacifica	39,260	3	2
Portola Valley	4,353	3	1

Redwood City	85,288	4	5
San Bruno	43,185	1,5	3
San Carlos	29,931	3	2
San Mateo	105,536	2	6
South San Francisco	67,271	1,5	4
Woodside	5,561	3	1
Unincorporated	64,000	1,3,4,5	4
San Mateo County Total	765,135		51

Appendix A-1 includes a list of confirmed locations which would utilize a kiosk as the collection method upon becoming a Collector. Appendix A-1 includes a list of additional potential locations which would utilize a kiosk as the collection method upon becoming a collector. Upon plan approval, the quantity of drop-off sites required will be evaluated and adjusted as Inmar consults with the Department for more detailed information on population centers and areas of need. Inmar will give preference to locating drop-off sites at retail pharmacies and law enforcement agencies (LEAs). Inmar has identified the following LEAs that do not currently participate as authorized collectors. Upon approval Inmar will make it a priority to reach out and establish drop-off sites at these locations:

San Mateo County Sherriff's Office	400 County Center, Redwood City, CA 94063
Atherton Police Department	83 Ashfield Road, Atherton, CA 94027
San Mateo Police Department	200 Franklin Parkway, San Mateo, CA 94403
Foster City Police Department	1030 E Hillsdale Blvd, Foster City, CA 94404
Colma City Police Department	1199 El Camino Road, Colma, CA 94014

Inmar will establish mail-back distribution locations to supplement service in any area underserved by collection sites as well as insure underserved areas in all supervisory districts are serviced. Inmar currently has Rx Returns clients in San Mateo County, of which many are retail pharmacy clients. Inmar will evaluate and contact these retail pharmacies as potential collection sites or mail-back distribution sites as needed. Inmar will utilize hospitals with on-site pharmacies and law enforcement agencies as necessary to meet the goals of equitable and reasonably convenient access for residents across San Mateo County. Appendix A-3 includes a list of confirmed mail-back distribution locations. Appendix A-4 includes a list of target mail-back distribution locations.

It is Inmar intention not to duplicate any locations for kiosk placement with existing plan operators. If necessary and upon plan approval, Inmar will coordinate with existing plan operators on how manage a kiosk at the same location. Annually, all eligible, validated retail, hospital, or clinic pharmacy locations not currently participating in an approved Stewardship Plan of the opportunity to become a Collector. Inmar will review any potential Authorized Collection Site against the Board of Pharmacy License directory to validate the location holds an active retail, hospital or clinic license. Additionally, sites will be required to provide evidence of current DEA registration. Inmar will notify the Director as new Authorized Collection Sites become operational. Such notification will include the Authorized Collector's contact information.

B. Kiosk Specifications and Design

- ✓ Ordinance 04736 Section 4.116.040(b)
- ✓ Ordinance 04736 Section 4.116.050(d)

Inmar's kiosk is made in the USA and designed for excellence. Produced from 16 gauge cold-rolled

steel, and with an easy-to-use, Americans with Disabilities Act (ADA)-compliant drop-box design, residents can easily drop unused medications through the drop door and into the shippable container with inner liner inside. The container is a 275lb rated box with a 6 mil, DEA-compliant liner.

There are several unique features that enhance the effectiveness and security of the Inmar kiosk. For example, the top of the kiosk is sloped, limiting the ability to stack items on top. In addition, the drop slot features an extended metal drop door that lowers into the container to detect when product capacity is reached. When the drop door encounters resistance within the kiosk, it is an indication that it is time to change the container. This manual capacity indicator eliminates the need to change batteries and/or sacrifice the location of the kiosk to be in proximity to an electrical outlet. Lastly, the container access door is reversible to allow for convenient placement in any appropriate location in the pharmacy.

Per DEA requirements, the kiosk must be installed in the line of sight of the pharmacy and bolted to the floor or a permanent fixture. The Inmar kiosk has pre-drilled holes in the bottom for easier installation. It also features a 4-point locking system with steel projections in two center locations and the top and bottom of the door that are activated when locked for strengthened security. Top and bottom deadbolt locations are hidden from the outside to prevent break-ins.

The Inmar kiosk will have signage that communicates what is and is not allowed to be placed inside. The signage will also feature a website and toll-free telephone number so users of the program can ask questions and find more information. Inmar will work with the Environmental Health Division of the County of San Mateo to design signage that meets the needs and requirements of the program. See Appendix B for examples of signage.

Inmar's DEA- and ADA-compliant kiosk is sent to the authorized collector along with enough supplies for 3 returns. Supplies include:

- Pre-addressed, pre-paid serialized containers
- Serialized inner liners to protect against puncture and provide a liquid barrier
- Easy-to-use, serialized zip ties to seal each inner liner compliantly
- Absorbent pad for placement in the bottom of the inner liner bag

eFigure 1: Kiosk Design Features

Figure 2: Kiosk Inner Liner Features

Pick-Up and Disposal

For the safe on-site removal of contents and servicing of drug take-back kiosks, Inmar abides by the DEA regulations in 21 CFR 1300 et al.

Inmar will work with each authorized collector to develop a collection program schedule that works specifically for their location - either an on-site or self-service option as outlined below.

With either of the service models outlined below, the focus will be on each authorized collector to develop a program that works specifically for their location.

A support help desk will also be established that will assist the authorized collectors with set-up, administration and operation of the kiosk at the collection sites.

Standard Self-Service Returns

Inmar will train authorized collectors to service the containers on their own to allow for expedited servicing as desired. The steps to service a container are fast, efficient, and DEA-compliant. Inmar will provide authorized collectors with training materials including step-by-step instructions for tracking, sealing, replacing, and shipping collection containers. See attached Steps to Start, FAQs, and Installation Instructions provided Appendix C.

Optional On-Site Pick-Up Service

Inmar may offer on-site service for the collection, replacement, and shipping of full containers. On-site service will be provided by a qualified service representative. To remain compliant with the DEA, the authorized collector will need two employees to oversee the service process with the kiosk.

Auto-Replenishment of Kiosk Supplies

Auto-replenishment of the supplies needed to collect and transport returned medications is provided in “kits” of three. Each kit includes: pre-labeled and pre-paid cardboard box containers, liquid barriers, and serialized, puncture-resistant inner liners. Upon receipt of the second return

within the kit, Inmar automatically ships another kit with a set of three containers/supplies. This auto-replenishment reduces the amount of inventory maintained at the collection site while maintaining sufficient replacement supplies to keep the kiosk continuously operable.

Figure 3: Kiosk Supply Auto-Replenishment Kit

Optional On-Site Pick-Up Service

Inmar will offer on-site service for the collection, replacement and shipping of full containers. This all-inclusive program removes the burden for the authorized collector and the pharmacy staff.

Inmar will initiate standard service intervals for each collection site. Once a pattern of usage has been established, the service schedule will be adjusted with the agreement of the authorized collector to provide the best overall service with minimal interruption.

Inmar will work with the authorized collector to adjust the schedule based on utilization of the receptacle.

The “Pre-Scheduled Service Event” will include:

- Observation of the condition of the receptacle upon arrival
- Notification to the pharmacy personnel of arrival
- Coordination of 2 pharmacy employees to witness change out of receptacle supplies
- Removal, packaging, and documentation of the container from the receptacle
- Replenishment of new supplies for renewed operation
- General clean-up and wipe down of receptacle
- Notation of container serial number removed, and serial number installed along with

- signatures by 2 pharmacy employees (witnesses)
- Removal of full container to be placed behind the pharmacy counter to await FedEx pick up.
- Final signature from pharmacy personnel of completion of Service Event.

C. Mail-Back Envelope Program

✓ Ordinance 04736 Section 4.116.050(b)(5)

As required by Ordinance 04736 Section 4.116.050(b)(5), Inmar will provide prepaid and pre-addressed take-back return envelopes, free of charge, to all residents including disabled or homebound County residents. Mail-back envelopes will be provided at mail-back distribution location sites, and will also be available directly from Inmar via the program website and toll-free 800 number.

Inmar will offer Mail-back services at multiple retail locations throughout the County. In locations where Inmar needs to offer Mail-back services locations to supplement the requirements for the convenience standard, our plan is simple and easily repeated. Unless otherwise requested by Authorized Collector kiosk locations, we will distribute Mail-back services envelopes only at locations that are non-kiosk locations.

Once a location has been accepted as a Mail-back services location, Inmar will send a stack of prepaid, pre-addressed Unwanted Covered Drugs Mailers to that location as a Mail-Back Starter Kit. Mailers will accept all Unwanted Covered Drugs, including pills, creams and liquids, and schedule II-V controlled substances. However, inhalers and auto-injectors will require the use of different mailback packages (described below) and will not be included in the Starter Kit. The Starter Kit will include 20 Mailers sent to each location. Inmar will track the unique identifier for all Mailers sent to each location for fulfillment and logistical purposes. Inmar will add a visual reorder trigger in the box of emailers. Once the location gets to the reorder trigger in the box, the visual reorder trigger will instruct the location to email Inmar for another kit. This service model ensures that there is no 'down time' at the site for mailers. If a location begins to use a larger number of Mailers, the number of fulfilled envelopes sent to that location will be increased.

Inmar is committed to providing all pharmacies an option to supply their customers with information regarding Mail-Back service options. Inmar will provide pharmacies with small cards that can be handed out to City residents that may need access to this service. The card will instruct them to either call or visit the program website to locate the nearest kiosk or request a mailer. Additionally, we will reach out to pharmacies filling prescriptions by mail to include the cards for the same options.

Additionally, County Residents will be able to request one Unwanted Covered Drug Envelope at a time via the Plan website or toll-free number. County Residents will receive the Unwanted Covered Drug Envelope no later than 10 business days from date of request.

Both the Unwanted Covered Drugs and Inhaler Envelopes will meet DEA rule requirements under § 1317.70(c):

- Preaddressed, postage paid
- Nondescript, and do not indicate what may be inside
- Waterproof, tamper-evident, tear-resistant, and sealable

- Contain a unique ID number that allows for tracking
- Include instructions for the user that indicate the process for mailing the package, substances that can be sent, notice that packages can only be mailed in the US customs territory, and notice that the only packages provided by the authorized collector will be accepted
- No personally-identifiable information will be required

Both Envelopes are white in color with a gray interior and are 7” x 10”. The Envelopes include a 3” perforated lip security seal. They are distributed by our third party contractor 123 Compliant Logistics, Inc.

A sample envelope is shown below.

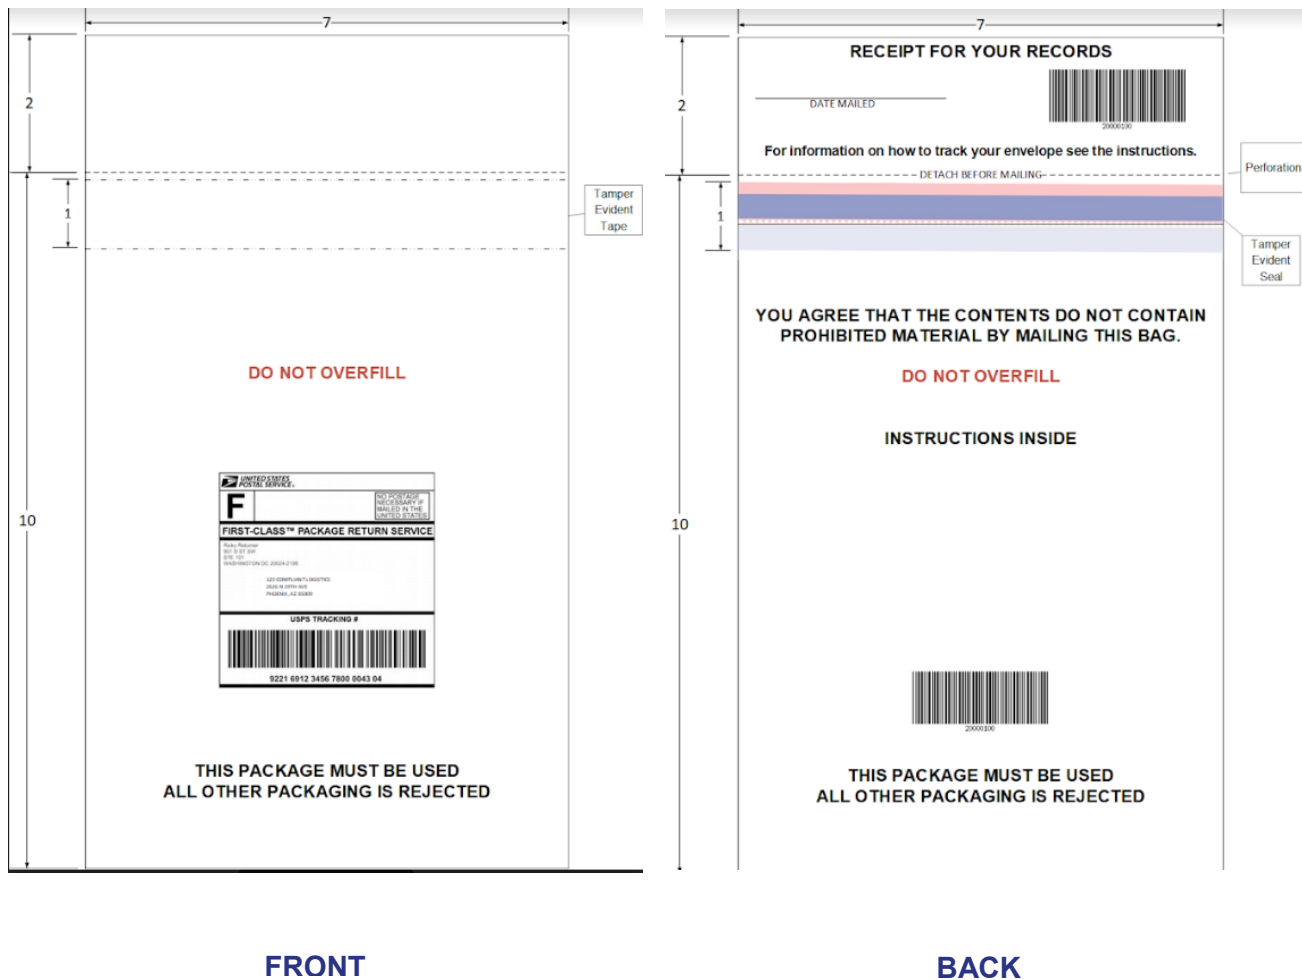

Figure 4: Unwanted Covered Drugs Sample Envelope

Sample Inhaler Envelope

County Residents will be able to request one Inhaler Envelope at a time via the Plan website or toll-free number. County Residents will receive the Inhaler Envelopes no later than 10 business days from date of request.

A sample inhaler envelope is shown below:

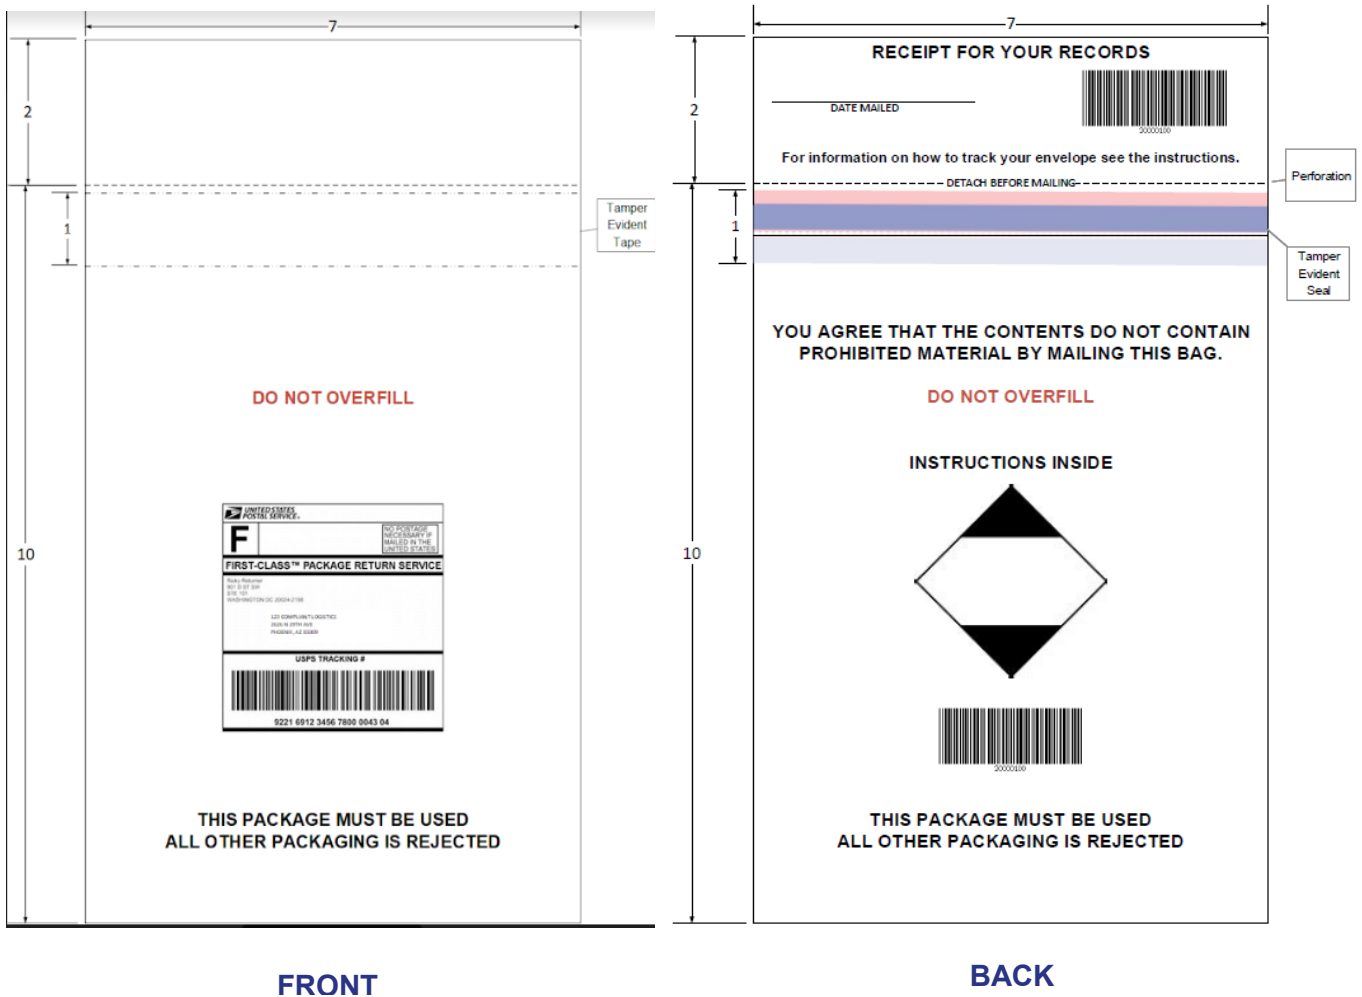

Figure 5: Inhaler Sample Envelope

Sample Auto Injector Container

County Residents will also be able request one auto-injector Mail-back container at a time via the Plan website or toll-free number. County Residents will receive the auto-injector Mail-back container no later than 10 business days from date of request. Auto-injector containers will meet all DOT requirements and will be fulfilled by 123 Compliant Logistics, LLC. See below for specifications and sample.

Specifications	
Access	Petals
Dimensions (in.)	7.5 x 3.6 x 3.6 in.
Color	Red
Lid Type	Hinge Cap
Liquid Absorbing Pad	Product has liquid absorbing pad
Universal Biohaz Sym	Product has universal biohaz symbol
Volume (L)	1.4 qt

Figure 6: Sample Auto Injector Container

Mail-Back Instructions

Mail-back instructions to County residents for all types of mailers are provided in Appendix B.

Mail-Back Envelope Tracking

Mail-back envelopes distributed by authorized mail-back distributors will be tracked in a method similar to the kiosk collection containers. Mail-back envelopes will have a unique, serialized identification number. When envelopes are distributed to consumers requesting them, the authorized collector employee will make note of this event on a serialization tracking sheet. Once the envelope arrives at the destruction facility, the serial number will be noted before final disposition.

Mail-back envelopes distributed directly to consumer via request from the website or toll-free telephone number will be tracked by Inmar when sent to consumers and tracked at the destruction facility when they are returned.

This tracking process will allow Inmar to report the number of mail-back envelopes distributed and returned in the Annual Reporting provided to the Department, as required.

D. Safety, Security and Patient Privacy

- ✓ Ordinance 04736 Section 4.116.040(e)
- ✓ Ordinance 04736 Section 4.116.050(b)(2)

Inmar provides significant training to our participating authorized collectors and strictly follows the DEA guidelines for the proper handling of the take-back kiosks and inner liners. This begins with the proper training of the authorized collector in the compliant operation of the kiosks and proper preparation, removal, and packaging of the container. It also involves the training of the Inmar staff that may come into contact with the full container to ensure proper handling. Inmar is very strict in our compliance to the DEA guidelines.

According to the DEA - As provided in §§ 1317.60(c) and 1317.70(f), inner liners shall be sealed immediately upon removal from the permanent outer container; sealed inner liners and returned mail-back packages shall not be opened, x-rayed, analyzed, or otherwise penetrated. Accordingly, their contents shall not be sorted or inventoried subsequent to being placed into a collection receptacle or mail-back package. To clarify this, § 1317.75(c) was modified to add the prohibition against individually handling substances after they have been deposited into a collection receptacle.

Inmar has a long history of serving both commercial and government clients with stringent program requirements. For example, Inmar's pharmacy applications manage Protected Healthcare Information (PHI) and are HIPAA compliant. Additionally, as part of Inmar's Rx Returns (reverse distribution) business, we work very closely with regulators to implement compliant procedures covering the DEA, Boards of Pharmacy, EPA, and other tangential regulatory entities. Data protection, privacy and adherence to applicable regulations are the foundation of Inmar service capabilities.

Inmar has a long history of serving both commercial and government clients with stringent compliance standards such as the protection of Protected Health Information (PHI) and HIPAA.

Any and all patient information on drug packaging and mail-back envelopes will be promptly destroyed.

E. Collector

- ✓ Ordinance 04736 Section 4.116.050(b)(3)
- ✓ Ordinance 04736 Section 4.116.050(b)(4)

Inmar will give preference to Retail Pharmacies and law enforcement agencies as drop-off sites and will ensure they are able to meet the requirements within three months of their offer to participate. Appendix A includes a list of potential locations which would utilize a kiosk as the collection method upon becoming a Collector. Inmar can also provide drop-off sites at hospital locations.

F. Drop Off Sites

- ✓ Ordinance 04736 Section 4.116.050(b)(4)
- ✓ Ordinance 04736 Section 4.116.050(c-d)

Pursuant to Ordinance 04736 Section 4.116.050(d) Inmar will accept covered drugs from residents during all hours that the retail pharmacy, law enforcement agency, or other authorized collector is normally open for business.

All drop-off sites will utilize secure kiosks as described in section (d). Per DEA requirements, the kiosk must be installed in the line of sight of the pharmacy and bolted to the floor or a permanent fixture. The Inmar kiosk has pre-drilled holes in the bottom for easier installation. It also features a 4-point locking system with steel projections in two center locations and the top and bottom of the door that are activated when locked for strengthened security. Top and bottom deadbolt locations are hidden from the outside to prevent break-ins.

In the unlikely event that more than one stewardship plan operates a drop-off site at a particular location, Inmar agrees that each drop-off site will accept all Covered Drugs. Additionally, in compliance with Ordinance 04736 Section 4.116.050(c), Inmar will operate a drop-off site within each county-owned pharmacy, either independently or in collaboration with other stewardship plans.

IV. Handling and Disposal

- ✓ Ordinance 04736 Section 4.116.040(c)
- ✓ Ordinance 04736 Section 4.116.070

Kiosk containers will be sent using Inmar's DOT Special Permit #20499, from the authorized Collector via FedEx to Inmar's third party contractor, 123 Compliant Logistics, LLC, a licensed DEA Reverse Distributor-Collector. All mailers will be sent via USPS to 123 Compliant Logistics. 123 Compliant Logistics will record the following information upon receipt of every individual container and mailer:

- Date received
- Serialized barcode label information
- Tracking information (Kiosk containers only)
- Weight
- Date transported to disposal facility

- Disposal Date
- Manifest number (if applicable)

All information recorded will be transferred back to Inmar on a daily basis as part of the electronic raw data file via SSH File Transfer Protocol (SFTP). Any discrepancies observed at 123 Compliant Logistics will be recorded on discrepancy reports to prompt any corrective action.

123 Compliant Logistics operates in full compliance with DEA § 1317.75(c) which prohibits handling substances after they have been deposited into a collection kiosk.

All product shipped directly to 123 Compliant Logistics will be transported using their contracted, licensed hazardous waste transporter, TransChem Environmental to the appropriate disposal facility to be incinerated quickly, securely, efficiently and in accordance with all DEA requirements. 123 Compliant Logistics will be responsible for all DEA Form 41 record keeping requirements. Please refer to the table below for the contracted disposal locations.

In reference to Ordinance 04736 Section 4.116.070(a), 123 Compliance Logistics, TransChem Environmental and FedEx will comply with all local, state and federal laws and regulations surrounding the transportation and disposal of Unwanted Covered Drugs. Additionally, service related to the collection, transport and disposal of unwanted medicine will be provided to authorized collectors and residents at no cost. Contact information and registration information is listed in the table below.

Company Name	Contact Information	Registration Information	Type of Incineration
123 Compliant Logistics, LLC 2626 N 29th Ave Phoenix, AZ 85009	Rory Buske 602-612-4140	DEA Reverse Distributor-Collector: R90571264	N/A

USPS	Jackie Purcell 919-501-9394		Common Carrier – All Mail-back packages

V. Policies and Procedures

✓ Ordinance 04736 Section 4.116.040(d)

Inmar operates drug take-back kiosks across 46 States and the District of Columbia as part of its operations today and maintains compliance with all federal and state laws and regulations. Upon approval to act as a “Stewardship Organization,” Inmar will ensure that it acts in compliance with all applicable laws, rules, and regulations as specified by the program requirements and require by contract where applicable that vendors and drop-off sites are also compliant with all laws, regulations, and legal requirements.

Inmar, drop-off sites, and vendors will specifically be required to comply with The Controlled Substances Act, 21 USC SS 801-971 and 21 CFR SS 1317; United States Department of Transportation Hazardous Materials Regulation, 49 CFR parts 100-185; All applicable San Mateo County Rules and Regulations.

The DEA Rule defines authorized collectors as law enforcement agencies and additionally as retail pharmacies, reverse distributors, hospitals or clinics with onsite pharmacies and certain other entities that are registered with DEA as an authorized collector.

Inmar requires a signed agreement with retail locations ensuring their commitment to compliant operation of the Take-Back kiosk and shipping of contents in compliance to the DEA regulations. A refusal to sign the agreement or comply with the DEA regulations would be a reason why a retailer could be excluded from the San Mateo County Stewardship Plan.

Documentation and Tracking

Collection containers and inner liners will have a serialized identification number to enable tracking at all stages of the return process illustrated below.

Figure 7: Return Process Tracking

Kiosk tracking is well-documented as evidenced by the Inmar serialization tracking form that is included in full as Appendix C and referenced below. This form must be completed and witnessed by two authorized collection site employees, which assures compliance and safety across the program, and internally by both the stewardship organization and the authorized collector.

 DRUG DISPOSAL SERIALIZATION TRACKING SHEET INNER LINER TRACKING FORM							
Serialization Tracking Sheet should be validated by 2 pharmacy employees.							
Name of Collecting Pharmacy			Address of Collecting Pharmacy			Collecting Pharmacy DEA #:	
SERIAL NUMBERS	Date Received by (1 Signatures)	Date In Use (2 Signatures)	Date Removed (2 Signatures)	Date Shipped (2 Signatures)	Size of Liner	Address of Reverse Distributor/Disposal Site	Reverse Distributor/Disposal Site DEA #
Ex: 32587	4/26/19 John Jones	4/26/19 John Jones Sally Smith	5/26/19 John Jones Sally Smith	5/27/19 John Jones Sally Smith	Ex: 18 Gallon	1515 S Holt Road Indianapolis, IN 46241	Ex: 123456

Figure 8: Inmar Serialization Tracking Form

The purpose of this form is to document the use of the serialized inner liner throughout the collection process and to help the authorized collector meet record-keeping requirements. Inmar will require each authorized collector to understand and comply with all federal, state, and local regulatory requirements pertaining to take-back pharmaceuticals applicable at the authorized collector's registered location.

The serial numbers, date received, and signatures of the authorized pharmacy employees must be completed upon receipt of the container and inner liner. As illustrated above, the date-in-use is to be completed with authorized pharmacy employee signatures upon installation of the kiosk. The date the container and inner liner are removed from the kiosk is also to be noted with signatures. Finally, the date the container and inner liner are shipped is to be noted with authorized signatures.

Authorized collectors must maintain a copy of the completed form, and other records as applicable, on file at the authorized collector's registered location for at least two years.

Mail-back packages are sent via USPS to 123 Compliant Logistics. County residents utilizing mail-back services place their unwanted or expired medication inside the envelope or auto-injector container, remove the perforated portion (which contains the tracking ID for the main package) and mail the package. While in transit, the ultimate user can track the package to ensure that it has arrived at 123 Compliant Logistics.

Inmar Intelligence will not have knowledge of a resident's mailing of these packages until they reach 123 Compliant logistics. County residents can track their own packages, and should they notice any issues, they can contact Inmar Intelligence to indicate that their package was lost in transit. Inmar Intelligence will immediately notify 123 Compliant Logistics and begin to leverage our partnerships with USPS to initiate an investigation.

Inmar Intelligence will not know that a package has been lost or stolen in transit unless otherwise notified by the County Resident.

Transport

The authorized collector will properly seal, store securely, and arrange for pickup of the sealed inner liner and its contents from the registered location in a manner consistent with DEA regulations. The container will include a pre-addressed and prepaid shipping label. The common carrier representative will take possession of the liner and deliver the liner to an approved destruction facility for witnessed incineration.

Disposal

Once the container/inner liner arrives at the destruction facility, the serial number will be noted before final disposition.

This tracking process will allow Inmar to report the number of collection site containers/inner liners distributed and returned in the reporting provided to San Mateo County, as required.

Compliance with Applicable Laws

Inmar operates across 46 states and the District of Columbia and maintains compliance with all federal and state rules and laws. Upon approval to act as an “Operator,” Inmar will ensure that it acts in compliance with all applicable laws, rules, and regulations as specified by the program requirements and require by contract where applicable that vendors and collection sites are also compliant with all laws, regulations and legal requirements.

Inmar’s drug kiosks are DEA- and ADA-compliant and provide environmental protection from unwanted drug residue. The units are equipped with a four-point locking system with hidden steel deadbolts that are activated when locked for strengthened security. They contain pre-drilled holes at the bottom of the unit for easy installation to securely bolt them to the floor in each approved collection site. The internal container and supplies protect against puncture and provide a liquid barrier to prevent seepage and/or spillage.

Inmar’s Training Materials, found in Appendix C, aid collection sites in proper drug kiosk installation, which helps optimize the security of the unit. The Training Materials also include information on receptacle operation, inner container materials assembly and placement, regulated shipping instructions, program FAQs, and serialization tracking. All of these inclusions maximize the safety and security of any person involved in the program at the collector level.

VI. Public Education Effort and Promotion Strategy

- ✓ Ordinance 04736 Section 4.116.040(f)
- ✓ Ordinance 04736 Section 4.116.060

A. Promotion

- ✓ Ordinance 04736 Section 4.116.060(a)(1)

Inmar will execute a comprehensive and measurable public outreach strategy to drive awareness of the drug take-back program and maximize participation as required by Section 4.116.060 of the San Mateo County Safe Drug Disposal Ordinance. In addition to preventative education, Inmar’s strategy is designed to ensure that where and how to return covered drugs is widely understood by residents,

pharmacists, retail pharmacies, health care facilities and providers, veterinarians, and veterinary hospitals. It is Inmar’s goal to reach a 75% saturation rate after 3 years for promotion of San Mateo County’s population. This will be measured by a question in the biennial survey which requests participants to identify whether certain promotional activities have reached them.

A leader in the promotions space for nearly 40 years, Inmar has a unique set of core capabilities relative to other prospective program operators, specifically in consumer marketing and activation. Thus, in addition to traditional outreach methods (signage, written materials, etc.), Inmar is able to drive participation among covered entities with modern, high-impact tactics such as influencer marketing and targeted media.

The individual components of Inmar’s public outreach strategy are detailed below. Across all tactics, key messages will include, but not be limited to, the following:

- Encourage safe storage of drugs in the home (especially around children and teens)
- Dangers of drug misuse (i.e., not taking medicines as prescribed)
- Discourage improper disposal of drugs (e.g., flushing or solid waste collection)
- Arrival of a safe drug take-back solution with instructions for how to locate and participate
- Consumer Drug Take-Back Day promotion

If more than one drug take-back program is approved by the department, Inmar will seek to coordinate its promotional activities with other approved programs within 12 months after the other program is approved. Inmar’s LifeInCheck™ Consumer Drug Take-Back website will ensure that all covered entities can easily identify, understand, and access the collection services provided by Inmar and other program operators. Upon plan approval coordination efforts with existing plan operators will include providing a single website and toll-free telephone number to access information about collection services for all approved programs.

B. Standardized Instructions

✓ Ordinance 04736 Section 4.116.060(a)(2)

As required in the Ordinance 04736 Section 4.116.060(a)(2), Inmar will coordinate with the existing approved Stewardship Plan operator to coordinate and develop a single system of promotion to include standardized instructions for County Residents. Additionally, Inmar provides authorized collectors with easy to understand and standardized instructions explaining how to use the collection kiosk. The educational materials will be distributed to audiences such as LEAs, pharmacies, healthcare providers and systems, local government agencies and community organizations.

Materials and outreach channels include:

1. Website and toll-free number
2. Educational Materials
 - i. Educational brochure for residents
 1. Including information on what types of unwanted medicine including inhalers and auto-injectors is accepted
 - ii. Training materials for authorized collectors
 1. Container Instructions
 2. Steps to Start Document

3. Installation Reference Guide
4. Serialization Tracker
3. Public Outreach

Educational materials for residents is provided in Appendix B. Training material samples are provided in Appendix C.

Collection Receptacle Signage

The collection receptacles themselves will be readily recognizable. Inmar will coordinate with the existing approved Stewardship Plan operator as part of the single system of promotion to insure that the collection receptacles are readily-recognizable. Each receptacle is adorned with clear graphical instructions in English, Spanish, Chinese and Tagalog for proper use. Please see Appendix B for an image of the collection receptacle and disposal instructions.

C. Website and Toll-Free Number

✓ Ordinance 04736 Section 4.116.060(a)(3)

Website

The current County approved Stewardship Plan Operator operates the website Medproject.org. Inmar agrees to use the existing website in coordination with any other approved Stewardship Plan Operator(s). Upon approval, Inmar is committed to working with any approved Stewardship Plan Operator(s) as required to determine a fair and equitable method in jointly meeting the requirements under the Ordinance.

Alternatively, Inmar can provide a mobile-optimized website, appropriately translated into English, Spanish, Chinese and Tagalog, which will publicize collection options and educate covered entities on proper disposal practices. Inmar will use enhanced search engine optimization to ensure easy location and access.

Specifically, the website would:

- Leverage Inmar's collaboration with Google Maps to allow covered entities to find the nearest collection site or mail-back distribution site via an interactive map. The list of locations will be updated monthly to ensure accuracy.
- Allow covered entities to request prepaid return envelopes.
- Feature links to LifeInCheck™ social media pages for more useful content.

Retailers or pharmacies interested in participating in the drug take-back program will be able to request more information through the website.

Toll-Free Number

The current County approved Plan Operator operates the toll-free number 844-633-7765 in the required languages of English, Spanish, Chinese and Tagalog. Inmar agrees to use the existing toll-free number in coordination with any other approved Plan Operator(s). Upon approval, Inmar is committed to working with any approved Stewardship Plan Operator(s) as required to determine a fair and equitable method in jointly meeting the requirements under the Ordinance.

Alternatively Inmar can operate a multi-lingual, (English, Spanish, Chinese and Tagalog), toll-free call center that interested parties can call to learn more about the Stewardship Plan, and best practices for disposal of Unwanted Covered Drugs. The call center is operated with live operators and will be staffed with a third party service to assist with live translation in the required languages. All operators are trained to assist and answer questions related to any and all questions related to the Stewardship Plan operation including but not limited to Authorized Collector kiosk support and service requests. County Residents will also be able to request information about the nearest drop-off site or Mail-Back Distribution Site, or request that a prepaid mailer is sent to them. Upon plan approve Inmar will coordinate with existing plan operates on a unified, single toll-free number for residents. We have provided a call center map on the following page which demonstrates call flows through the call center.

CALL CENTER

Call Center Script: "Thank you for contacting the Consumer Drug Take Back Center. My name is _____. How May I Help you?"

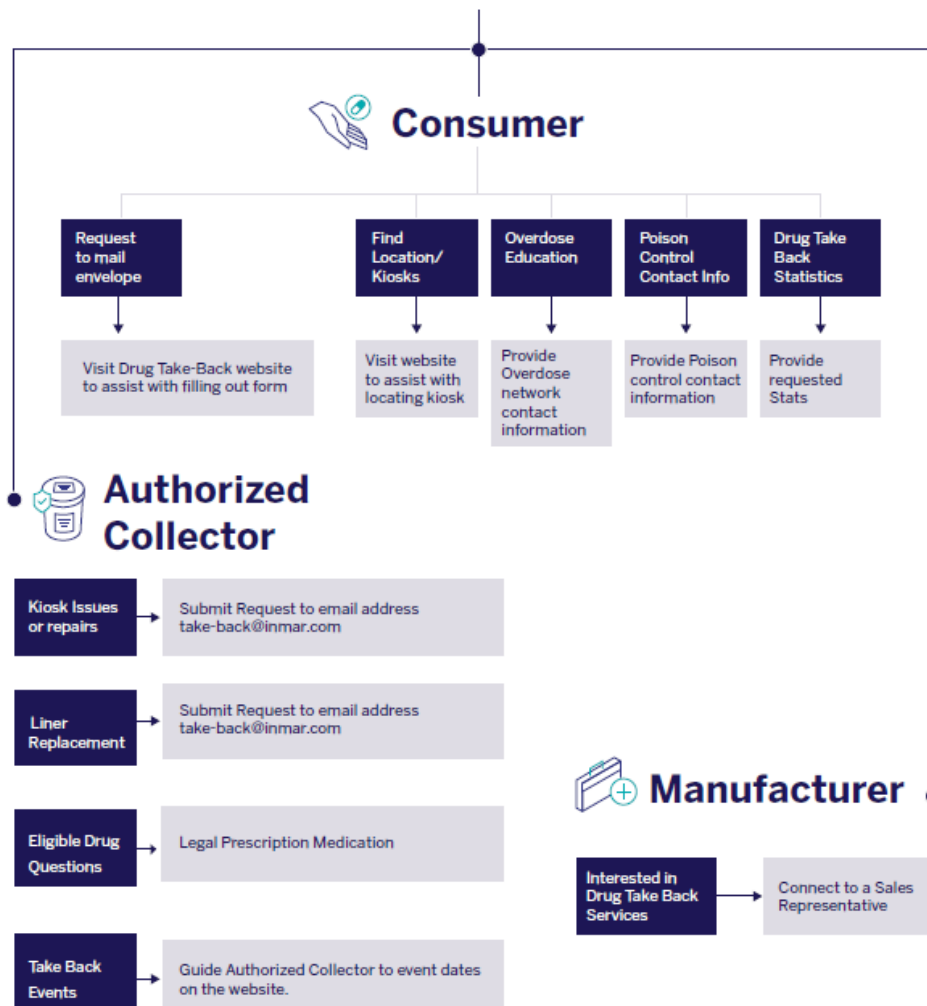

Figure 9: Call Center Flow

D. Educational Materials

Educational Brochure for Residents

Inmar provides an easily-consumable educational brochure for dissemination to interested parties including residents, pharmacists, retailers and health care practitioners upon request and at no charge. The educational brochure will be provided in Tagalog, Spanish, Chinese, and English.

The educational brochure will:

- Educate County residents about the appropriate use, storage, and disposal of Unwanted Medicine
- Provide County residents with clear steps to properly manage the disposal of their Unwanted Medicine including following instructions found on the medicine label, use of Kiosk Drop-Off Sites,
- Instructions on requesting a mail-back envelope
- Provide best-practices for in-home disposal where no disposal instructions are given on the drug labeling

All materials will be easily understandable by covered entities with varying levels of English proficiency and will leverage explanatory graphics to aid in comprehension.

Please see Appendix B for example materials.

Training Materials for Authorized Collectors

Inmar provides authorized collectors with easy to understand and standardized instructions explaining how to use the collection kiosk. Training material provided to authorized collectors include:

1. FAQs
2. Container Instructions
3. Steps to Start Document – Including Kiosk Maintenance requests
4. Installation Reference Guide
5. Serialization Tracker

Training material samples are provided in Appendix C.

E. Public Outreach

Inmar's stewardship program will provide public outreach through the following channels:

Authorized Collector Marketing Support

To drive awareness and participation at a local level, Inmar will provide individual authorized collectors with a variety of marketing assets at no charge, including in-store signage, social media content kits, press release templates, a radio ad script, and scripts for pharmacy staff to let covered entities know that they can safely dispose of their covered drugs at that location. Authorized collectors will be able to request additional marketing materials through the help desk.

Please see Appendix D for example materials.

Social Influencer Marketing

The 2016 acquisition of Collective Bias gave Inmar the ability to execute robust, data-driven social influencer marketing programs that activate shoppers and patients alike. On average, Inmar executes approximately 500 such programs annually.

Inmar has a curated network of more than 12,000 highly-vetted influencers who are experts at creating authentic, compelling content that can drive awareness and inspire participation among covered entities. Inmar utilizes sophisticated influencer selection, data-driven content distribution, and audience re-engagement tactics to ensure that content is hyper-relevant and that the covered entities receiving the content are the ones most inclined to take action.

Content can focus on an array of topical themes, however, based on the program requirements outlined in Chapter 7.90 San Mateo County Safe Drug Disposal Ordinance Section 7.90.100, Inmar's recommendation would be one, or a combination of, the following:

- Tips for safe storage of medications in the home prior to disposal
- Education about the implications of improper drug disposal
- Promotion of the drug take-back program, including directions on where and how to participate

Inmar executed a social influencer marketing program promoting drug take-back in April of 2019 which yielded exceptional results (see Sub-Section 7 for more information on impact measurement and reporting). The campaign generated 11.4MM impressions, but, more importantly, the posts themselves were highly engaging. The average click-through-rate (CTR) was 4.5% (a historical CTR benchmark in this category is 1.5 - 2.0%) and users spent an average of one minute and eight seconds on each post. Both metrics suggests users found the content compelling and useful. ROI for social influencer marketing campaigns is measured in terms of return on Total Media Value (the combined value of earned and paid media for the campaign). In this case, TMV return was favorable at 2.1x.

Please see Appendix D for sample social influencer content. We also invite you to view some of the top performing posts linked below:

- [*Life in Check Consumer Drug Take-Back receptacle | National Prescription Drug Take-Back Day by Meagan Harrell*](#)
- [*5 Easy Tips to Declutter Your Closet + Safe Medication Disposal by Valerie Clement*](#)
- [*How to Dispose of Unused Medications Safely - Mom Always Knows by Elizabeth Hurt*](#)

Targeted Media

Inmar's expert paid media team actively monitors social influencer content for the highest performers - looking beyond vanity metrics to focus on deeper measurements such as views and engagements. The most engaging content is promoted across social platforms as well as off-site media to amplify the message around drug take-back to a targeted cohort of covered entities.

Lastly, in partnership with PlaceIQ, Inmar offers targeted ad units that allow messages to be delivered

to covered entities that are physically near or in selected locations (e.g., near a kiosk) and provide after-action metrics, such as Place Visit Rate, which demonstrate in-store foot traffic among your target audience.

Impact Measurement

In accordance with Chapter 7.90 San Mateo County Safe Drug Disposal Ordinance Section 7.90.100, Inmar will provide a description of outreach initiatives in its annual report, but also aims to provide more frequent and actionable reporting on the impact of such initiatives.

With specific regard to social influencer marketing and targeted media, Inmar's measurement tools and philosophies have continuously set the industry standard with their emphasis on transparency and quantifiability over vanity metrics and theoretical explanations.

All paid and organic activity is measured using the industry's most powerful analytics suite to capture true ROI. Reporting will include:

- Third-party verified Content View & Engagement reporting
- Engagement breakdown by social platform, including Time on Content
- Social Content Ad™ (aka social media ad) performance data
- Total Media Value (TMV) calculations
- Thumbnail links to all influencer content, and performance metrics for individual influencer posts (including TMV for each post)

F. Biennial Survey

✓ Ordinance 04736 Section 4.116.060(a)(4)

Inmar will coordinate with existing plan operators to conduct a biennial survey of San Mateo County Residents as well as pharmacists, veterinarians and health professionals who interact with patients on use of medicines after the first full year of operation of the Stewardship Plan. The aim of the survey questions will be to measure the percent awareness of the Stewardship Plan, assess to what extent drop-off sites and other collection methods are convenient and easy to use, and assess knowledge and attitudes about risks of abuse, poisonings, and overdoses from prescription and non-prescription drugs used in the home. Inmar will coordinate with existing plan operators to ensure that we do not overlap on communication channels and duplicate survey respondent results.

Draft survey questions will be submitted to the Director for review and comment at least 30 days prior to the initiation of the survey. Results of the survey will be reported to the Director and made available to the public on the website required in subsection (a)(3) within 90 calendar days of the end of the survey period. The privacy of all survey respondents will be maintained.

G. Language Translation

✓ Ordinance 04736 Section 4.116.060(b)

All outreach methods will be translated into English, Spanish, Chinese and Tagalog.

H. Multiple Stewardship Plans

✓ Ordinance 04736 Section 4.116.060(c)

Inmar will coordinate with existing approved Stewardship Plan Operators to develop a single system of promotion for all Stewardship Plans when multiple plans exist.

VII. Short-term and Long-term Goals

✓ Ordinance 04736 Section 4.116.040(g)

	Short-Term (2021)	Long-Term (2021+)
Collection	<ul style="list-style-type: none"> Initiate program operation Place 51 drop-off sites (1 per 20,000 residents spread across the 5 per supervisorial districts) preferably at retail pharmacies, hospitals and clinics with on-site pharmacies, and law enforcement agencies <ul style="list-style-type: none"> Inmar estimates collection of 20 lbs. per month per drop-off site on average for a total of 12,240 lbs. for 12 months with 51 kiosks placed Establish mail-back service in areas that are underserved by collection drop-off sites (3,000 lbs.) 	<ul style="list-style-type: none"> Increase drop-off site locations at a rate of one additional kiosk per supervisorial district Increase collection by 10% per year (equal to 13,464 with 56 kiosks placed)
Education & Promotion	<ul style="list-style-type: none"> Finalize a plan of coordination with med-project on a unified website, phone number and other promotional materials within 90 days of plan approval Establish a baseline of percentage of residents reached through social media and other targeted media outreach Provide training material to each authorized collector and establish a baseline for number of messages received by Inmar regarding training and knowledge gaps 	<ul style="list-style-type: none"> Reach 25% of population through plan media outreach efforts by the end of year 1. Reach 50% of population through plan outreach by the end of year 2. Reach and sustain a 75% saturation rate for plan outreach by the end of year 3 and beyond. All authorized collectors have been properly trained on collection and disposal as indicated by a reduction to baseline of messages received by Inmar from authorized collectors about training and knowledge gaps.

VIII. Additional Plan Considerations

✓ Ordinance 04736 Section 4.116.040(h)

Existing Providers of Pharmaceutical Waste Services

To the extent that existing providers of pharmaceutical waste are already in operation, Inmar will determine if coordinating efforts creates efficiencies for the county and improves convenient and equitable access for county residents.

Furthermore, to the extent that there are other stewardship organizations, Inmar will seek to coordinate its activities with said programs within 12 months after Inmar’s stewardship program is approved. Inmar’s LifeInCheck™ Consumer Drug Take-Back website will ensure that all consumers can easily identify, understand, and access the collection services provided by Inmar and other stewardship organizations. Coordination efforts will include providing a single website and toll-free telephone number to access information about collection services for all approved programs.

Package Separation & Recycling

DEA § 317.75(c) prohibits handling substances after they have been deposited into a collection kiosk. For this reason, Inmar is unable to separate and recycle drug packaging. However, Inmar can execute educational programs, as outlined in Section VI, to encourage county residents to separate unwanted covered drugs from their packaging and recycle the packaging prior to disposal.

Even though regulations prevent us from recycling drug packaging, Inmar still has a vested interest in reducing waste and improving our environment. Through our Rx Returns and related business lines, Inmar has saved over 20,000 barrels of oil, recovered over 11,000 megawatts of clean energy and powered over 900 homes in just the past two years alone. We will continue to look for opportunities to expand our eco-friendly efforts in San Mateo County.

Inmar Energy Metrics

Megawatts of Clean Energy Recovered:

2017 = 5,436
2018 = 5,643

Barrels of Oil Saved:

2017 = 9,896
2018 = 10,270

Homes Powered for a Year:

2017 = 482
2018 = 495

IX. Administrative and Operational Costs and Fees

Inmar’s plan includes multiple producers who equitably share the cost of implementation. Inmar represents producers in San Mateo County as well as the remainder of the United States where regulations require stewardship oversight. As such, each producer pays a fee for services performed by Inmar. This fee is based on several factors including market share of covered drugs throughout the county. Below is a list of costs that are covered by producers as part of their fee to Inmar:

- Collection and transportation supplies for each drop-off site;
- Acquisition of all secure collection bins for drop-off sites;
- Ongoing maintenance or replacement of secure collection bins, as requested by collectors;
- Prepaid, preaddressed mailers provided to disabled and/or home-bound County residents;
- Transportation of all collected covered drugs to final disposal, including costs of law enforcement escort if necessary;
- Environmentally sound disposal of all collected covered drugs under Section 4.116.070 of this chapter;

- Program promotion under Section 4.116.060 of this chapter; and
- Costs related to any review of a product stewardship plan for purposes of obtaining compliance with the California Environmental Quality Act (Cal. Pub. Res. Code § 21000, et seq.).

Retail Pharmacies are not expected to incur any costs for participation however any staff or staff duties performed by the retailer in conjunction with the plan are not costs covered by the Producers or Inmar.

X. Reporting

✓ Ordinance 04736 Section 4.116.090

Within six months after the end of the first 12-month period of operation, and annually thereafter for a period covering January 1 – December 31, Inmar will submit a report describing the program’s activities during the previous reporting period. The report will include:

- (1) A list of participating producers
- (2) The amount by weight of covered drugs collected, including the amount by weight from each collection method used
- (3) A list of drop-off sites
- (4) The number of mailers provided for disabled and/or home-bound county residents
- (5) The locations where mailers were provided, as applicable
- (6) The dates and locations of collection events held, as applicable
- (7) The transporters used and the disposal facility or facilities used for all covered drugs
- (8) Whether any safety or security problems occurred during collection, transportation or disposal of unwanted covered drugs during the reporting period and, if so, what changes have or will be made to policies, procedures or tracking mechanisms to alleviate the problem and to improve safety and security in the future
- (9) A description of the public education, outreach and evaluation activities implemented during the reporting period including a log/report of the dissemination of brochures and/or collateral pieces sent to host kiosk sites and industry such as doctor’s offices, hospitals, clinic, etc.
- (10) A description of how collected packaging was recycled to the extent feasible, including the recycling facility or facilities used
- (11) A summary of the stewardship program’s goals, the degree of success in meeting those goals in the past year, and, if any goals have not been met, what effort will be made to achieve the goals in the next year
- (12) The total expenditures of the stewardship program during the reporting period
- (13) A report/log of kiosk maintenance or emergency issues (including response time and when the issue was resolved)
- (14) A report/log of incoming calls made to Inmar’s call center from the public inquiring about the program, and
- (15) A report/log of Incoming host kiosk site calls to Inmar

MEDICINE DISPOSAL

Eliminación de medicamentos
 药物处置
 Pagtatapon ng gamot

SAFELY DISPOSE OF UNWANTED & EXPIRED MEDICINES

01

Cross out or remove personal identifying information from the medicine bottle.

02

Leave the product in its original container or place solid medicines in a sealed plastic bag.*

*If transferring medications to a sealed bag, please be sure to recycle all remaining packaging.

03

Put medicine in the kiosk.

ONLY SCHEDULE II-V CONTROLLED AND NON-CONTROLLED SUBSTANCES THAT ARE LAWFULLY POSSESSED BY THE ULTIMATE USER ARE ACCEPTABLE TO BE PLACED IN THE KIOSK. SCHEDULE I CONTROLLED SUBSTANCES, ILLICIT OR DANGEROUS SUBSTANCES, AND ANY CONTROLLED SUBSTANCES NOT LAWFULLY POSSESSED BY THE ULTIMATE USER MAY NOT BE PLACED IN THE KIOSK.

For more information about the drug disposal program, please go to [Website TBD] or call 1-844-633-7765.

Promotional Brochure for Residents

WHAT SHOULD YOU DO WITH YOUR UNWANTED OR EXPIRED MEDICINES?

There are a number of ways to dispose of expired or unwanted medications.

Medicines help treat diseases, manage chronic conditions, and improve health and well-being for millions of Americans. It's vitally important that patients take their medicine as prescribed by their health care provider and as indicated on the label or packaging. It's also important to be sure to store medications securely to prevent accidental ingestion or misuse by others in your household, especially children.

If you have expired or unwanted medication, proper disposal is easy. To protect your privacy, consumers are reminded to remove all personally identifiable information on prescription labels or materials before using any of the following disposal options.

(Source: U.S. Food and Drug Administration)

For more information about the program, go to www.med-project.org or call 1-844-633-7765

Appendix C: Training Material

Training material provided to authorized collectors include:

1. Getting Started
2. Container Instructions
3. Installation Reference Guide
4. Serialization Tracker

All of the aforementioned documents are provided on the following pages.

GETTING STARTED

KIOSK

You will receive your Consumer Drug Take-Back kiosk and your supplies in separate shipments. After unpacking the Consumer Drug Take-Back kiosk, it must be installed according to the “Responsible Disposal Act” Rule which means it must be connected to a wall or the floor ensuring the kiosk is secure. Your kiosk will come pre-drilled in the bottom to make installation easier. Please see the installation instructions included in this email.

Your usage of the Inmar Consumer Drug Take-Back Program indicates your agreement to accept responsibility for following the Federal and State Guidelines. DEA’s Final Rule, which implements the Secure and Responsible Drug Disposal Act of 2010 (“the Disposal Act”).

SUPPLIES

After completing the proper installation of your Consumer Drug Take-Back kiosk, you should unpack your supplies.

Included are supplies to operate your Consumer Drug Take-Back program for 3 shipments. Upon Inmar’s receipt of your second container (return) shipment, we will automatically send your next 3 shipment supply package so you will always have the necessary supplies on hand. Staged shipping of your supplies alleviates your need to store large supply quantities.

Each shipment contains 3 individually-packaged kits with unique components to each kit. DO NOT rearrange contents between kits.

Each kit contains one of each of the following:

- Serialized Inner Liner
- Absorption pad
- Serialization Tracking Sheet (emailed separately)
- Black Zip Tie
- Set of instructions (Single Page)
- Numbered and pre-labeled cardboard box

It is important for you to document receipt of the serialized Inner Liners on your tracking form. To assist, Inmar has provided the Serialization Tracking sheet (Inner Liner Tracking Form). Maintain a copy of the completed Serialization Tracking Sheet in your files for at least 3 years (at the collector’s registered location). Refer to 16 CCR §1776.6.

CONSTRUCTING YOUR INNER CONTAINER

Construct 1 cardboard container applying an appropriate amount of tape to the bottom to ensure safe transportation. Seal the middle seam and both outside seams. Leave no untaped spaces along the seams and no less than 3 inches of tape overhang on each side. We recommend 2 strips of tape across the bottom seam and 2 strips of tape over the edge seams and 2 strips of tape across the bottom of the container placed diagonally. See illustration to right.

NOTE: All direct contact with the unsealed Consumer Drug Take-Back liner must be performed by two pharmacy personnel.

PREPARING YOUR CONTAINER FOR USAGE

1. Place Serialized Inner Liner into the box and fold excess material at top over box flaps. Leave Black Zip Tie taped to the Liner for later use. (When inserting Inner Liner, check to ensure Serial Number on Serialized Inner Liner matches Serial Number on the shipping container.)
2. Place absorbent pad into the installed Liner.
3. Install the lined box (now the "Container") into the Collection Kiosk.
4. Immediately document installation of Container (column 3 of the Serialization Tracking Sheet).

5. Store remaining spare kits securely for future use.
6. Lock bottom door and unlock top door to begin CDTB collection.

NOTE: All direct contact with the unsealed Consumer Drug Take-Back liner must be performed by two pharmacy personnel.

PREPARING YOUR CONTAINER FOR SHIPPING

Note: The total weight of the Container ready for shipping MAY NOT EXCEED 66 POUNDS IN WEIGHT.

1. Unlock and open bottom door.
2. Remove full Container from Collection Kiosk.
DO NOT sort, count or inventory pharmaceuticals or touch contents of Liner prior to sealing.
3. Immediately seal the Serialized Inner Liner by gathering the top of the Liner, bending the gathered portion at the halfway point and folding the top half alongside the bottom half. For extra security, bend the gathered portion at the halfway point a 2nd time. While folding Liner, keep Serial Number on Liner visible. Securely cinch the provided Black Zip Tie around both halves of the gathered portion of the Liner to secure the top. Ensure that the zip tie is completely above the exposed end of the top half of

the gathered portion and that the zip tie is fully tightened. This will provide an airtight seal at the open end of the Liner to prevent leakage of any trace liquids that may be inside. See next page for illustration.

4. Close and tape the box top. Seal the middle seam and both outside seams. Leave no untaped spaces along the seams and no less than 3 inches of tape overhang on each side. We recommend 2 strips of tape across the top seam and 2 strips of tape over the edge seams and 2 strips of tape across the top of the container placed diagonally. See illustration of taping method above.
5. Document removal of Container (in column 4 of Serialization Tracking Sheet).
6. Store the sealed Container in a secure location until shipped.

SHIPPING AND RECORD KEEPING

Note: Container is pre-labeled and ready to return. The marking requirements of 49 CFR 172.301(c) do not apply. The container shall not contain any markings to indicate that the contents contain controlled substances.

1. Ship in accordance with the DOT Special Permit.
Container comes pre-paid and pre-labeled for shipping.
2. When the Liner is shipped, complete column 5 on the Serialization Tracking Sheet. The completed Serialization Tracking Sheet is a record of Liner Events and should be filed in accordance with DEA guidelines. Schedule a pickup on FedEx.com by clicking "Shipping" then from the drop-down menu selecting "Schedule & Manage Pickups."

Click "Schedule a pickup." When prompted to log in, go to the "New FedEx.com Users" column and click "FedEx Ground Return Pickup." Enter the tracking ID from the shipping label and enter other information needed. On special instructions, describe exactly where in the store the pharmacy/box is being kept.

3. Maintain a copy of the completed Serialization Tracking Sheet in your files for at least 3 years (at the collector's registered location). Refer to 16 CCR §1776.6.
4. Inmar will maintain your modified Form 41 noting destruction date and time on file and will provide it to you upon request.

QUICK STEPS

TO START

- 01** Install the Consumer Drug Take-Back Kiosk per DEA guidelines.
- 02** Properly tape container at bottom.
- 03** Place Serialized Inner Liner inside with top folded over container flaps.
(When inserting Serialized Inner Liner, check to ensure Serial Number on Inner Liner matches Serial Number on the shipping container.)
- 04** Place absorbent pad in bottom of Serialized Inner Liner.
- 05** Document the installation of the container on the Serialization Tracking Sheet.
- 06** Install container inside Consumer Drug Take-Back kiosk.
- 07** Lock bottom door and unlock top door to begin drug take-back collection.

TO CLOSE

- 01** Open bottom door.
- 02** Remove full container, total weight of container **may not exceed 66lbs in weight.**
- 03** Ensure the Serial Number is visible before using a zip tie to secure Serialized Inner Liner bag top.
- 04** Document the removal of the container on the Serialization Tracking Sheet.
- 05** Properly tape container at top.
- 06** Container is pre-labeled for return shipment.
- 07** Schedule pickup with FedEx.

NOTE: All direct contact with the unsealed Consumer Drug Take-Back liner must be performed by two pharmacy personnel.

HOW TO SEAL THE LINER TO PREPARE FOR SHIPPING

- 01**
Immediately seal the Serialized Opaque Liner by gathering the top of the Liner.

- 02**
Bend the gathered portion at the halfway point and fold the top half alongside the bottom half.

- 03**
Repeat Step 2 - Again bend the gathered portion at the halfway point and folding the top half alongside the bottom half.

- 04**
Cinch and fully tighten the provided Black Zip Tie around both halves of the gathered portion of the Liner to secure the top.

1. MAINTENANCE AND CLEANLINESS OF KIOSK

The kiosk should be kept free of dirt and debris both inside and out. After an inner liner is removed for shipping, the pharmacist or servicing technician should look around the inside of the kiosk as well as the outside. The interior and exterior of the kiosk should be kept clean and free of

debris so as to not disrupt the intended functioning of the kiosk. Make sure the drop-door is in proper working order at all times when unlocked. In the event of any malfunction or maintenance needs, refer to procedures for requesting maintenance below.

2. PROCEDURES FOR REQUESTING MAINTENANCE

Should any portion of the kiosk become inoperable (key is lost, lock malfunctions, door hinge becomes unusable, etc.), Inmar's helpdesk can be reached by emailing take-back@inmar.com and describing the issue at hand. This inbox is

monitored by a team of people who are fully dedicated to the consumer drug take-back team at Inmar. The team will triage the request, contact the pharmacist or pharmacy manager if needed and solve the issue at hand.

3. PROCEDURES FOR ENSURING THAT THE CONTAINER IS REMOVED IN A TIMELY MANNER AND WHAT TO DO IF IT'S NOT.

The pharmacist should remove the container when it is full and prepare for shipping as described on this training document. After filling out the necessary information on the FedEx ship manager site, or providing the information via telephone, the liner should be securely locked in a location in

the pharmacy until it is picked up by FedEx personnel. If for any reason the pickup does not happen within 48 hours after being scheduled, please reach out to take-back@inmar.com and a consumer drug take-back team member will assist with this process.

KIT CONTENTS

Each shipment contains 3 individually packaged kits with unique components to each kit.

DO NOT rearrange contents between kits.

THE KIT:

- 1 The kit will arrive in a package similar to this.
- 2 The kit will include three numbered and pre-labeled boxes.

Each kit contains one of each of the following items:

- 1 Zip tie
- 2 Absorption pad
- 3 Inner liner
- 4 Numbered and pre-labeled box

IMPORTANT:

For every shipment – serial number on inner liner & serial number on cardboard container **MUST MATCH**.

NOTE: All direct contact with the LifeInCheck Consumer Drug Take-Back Container should be performed by two pharmacy personnel.

KIT INSTRUCTIONS— INSTALLING A NEW COLLECTION CONTAINER

1 Document the serial number and receipt of each inner liner on the Drug Disposal Serialization Tracking Sheet.

DRUG DISPOSAL SERIALIZATION TRACKING SHEET INNER LINER TRACKING FORM

	<i>John Jones</i>	Sally Smith	<i>Sally Smith</i>	Sally Smith	<i>Sally Smith</i>	Sally Smith	<i>Sally Smith</i>	Sally Smith	<i>Sally Smith</i>

Instructions: Each Inner Liner (container) will bear a permanent, unique identification number to enable tracking on the Inner Liner form. Columns 1 and 2 are to be completed upon receipt of Inner Liner. Column 3 is to be completed upon installation of the container into the collection receptacle. Column 4 is to be completed upon removal of the container from the collection receptacle. Column 5 is to be completed if the Inner Liner is removed from the receptacle and placed in storage before being shipped. Column 6 should be completed when the inner liner is shipped for destruction. Maintain a copy of the completed "Inner Liner form" and other records, as applicable, on file at the collector's registered location for at least 2 years.

The purpose of this form is to document the use of the Inner Liner throughout a collection event. Although proper use of this form is intended to help the collector meet record keeping requirements, requirements may vary based on the registrant location. It is the responsibility of each registered collector to understand and comply with all federal, state and local regulatory requirements pertaining to take-back pharmaceuticals applicable at the collector's registered location. The Inner Liner form is not a DEA Form 41.

NATIONAL PRESCRIPTION DRUG TAKE-BACK DAY

SATURDAY, OCTOBER 26, 2019

POWERED BY  **LIFE IN CHECK™**
CONSUMER DRUG TAKE-BACK

NATIONAL PRESCRIPTION DRUG TAKE-BACK DAY

- Unused or expired prescription medications are a public safety issue, leading to accidental poisoning, overdose, and abuse.
- Pharmaceutical drugs can be just as dangerous as street drugs when taken without a prescription or a doctor's supervision.
- The non-medical use of prescription drugs ranks second only to marijuana as the most common form of drug abuse in America.
- The majority of teenagers abusing prescription drugs get them from family and friends and the home medicine cabinet.
- Unused prescription drugs thrown in the trash can be retrieved and abused or illegally sold. Unused drugs that are flushed contaminate the water supply. Proper disposal of unused drugs saves lives and protects the environment.

TAKE-BACK PROGRAMS ARE THE BEST WAY TO DISPOSE OF OLD DRUGS.

But if a program is not available:

- Take the meds out of their bottles;
- Mix the medicines (do not crush tablets or capsules) with an unpalatable substance such as dirt, kitty litter, or used coffee grounds. This prevents thievery or diversion of medicines from the trash.
- Place the mixture in a container such as a zip-lock or sealable plastic bag, and throw the container away in your household trash.

SOCIAL MEDIA

Twitter: Crafting the Perfect Tweet

Twitter is a simple way to quickly share short pieces of information. Twitter posts can be up to 140 characters in length, but 100 characters is the ideal length for maximum distribution. Including images in your tweets will make them stand out in the Twitter feed; these images should be 1084 x 512 pixels*.

Facebook: Appealing to Your Audience

Facebook allows you to share lengthier posts with slightly larger images. However, longer isn't always better. Shorter posts with compelling graphics tend to receive more shares and comments than longer posts, giving you more visibility within the Facebook news feed. Keeping your Facebook posts under 100 characters is ideal. Always include a link to an article or an image. Images on this social media platform are ideally 1200 x 628 pixels.

SAMPLE POSTS

Copy and paste the following social media posts into your Facebook or Twitter to spread the word about the importance of properly managing leftover pharmaceuticals and drive people to your location. You can also combine them with some of the facts below to drive awareness of the importance of consumer drug take-back programs. Be sure to add one of the accompanying images and to fill in your location's name.

Announcing our new Consumer Drug Take-Back program to safely dispose of unused medications at OUR LOCATION.

OUR LOCATION wants to help you protect your loved ones, the community and the environment! Now you can dispose of unused meds here.

OUR LOCATION wants to help you protect your loved ones, the community and the environment by offering free unused meds disposal.

Got leftover meds? Drop them off at OUR LOCATION – free and easy.

Visit OUR LOCATION to drop off your leftover meds for free – no questions asked.

[insert pharmacy name] announces convenient drug takeback program for leftover household medications

[CITY, STATE, TODAY'S DATE] – [PHARMACY NAME] announced today it has established a convenient medication takeback program for easy disposal of leftover, unused and out-of-date prescription and over-the-counter medications.

In an effort to help reduce the risk of drugs in the home that can potentially harm children, teens or adults, **[PHARMACY NAME]** has set up a secure, safe drop-off location in its pharmacy at **[ADDRESS]** in **[CITY NAME]**.

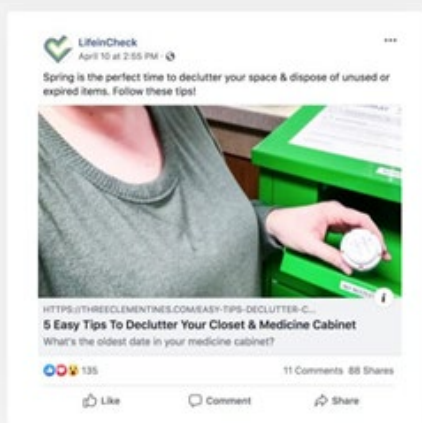

Unused medications in the home are a source of drug abuse in millions of homes, with the opioid crisis in the United States fueled in part by that availability. More than 83 percent of opioid prescription medications taken by new users are obtained from a friend, relative or others. Overall, 192 Americans die every day from a drug overdose.

"We want to provide the folks in our community with the safe, secure opportunity to clean out their medicine cabinets and make their homes and communities safer," said **[NAME OF PHARMACY MANAGER OR OWNER]**, of **[PHARMACY NAME]**. "We want to remind people that they should not flush drugs down the toilet. Traces of drugs can appear in community drinking water. Our drug disposal unit, which is easily accessible in the pharmacy, is a great answer to that problem and it's simple to do. All they do is just come in, look for the big green receptacle and take it from there. Drugs can be dropped off with no questions asked."

[PHARMACY MANAGER/OWNER'S LAST NAME] said there are some things that can't be taken in the receptacle, such as inhalers and needles, but pharmacy staff will be on hand to help determine what to do. The collection receptacle will be available in the pharmacy at **[ADDRESS]**, **[DAYS AND HOURS]**.

[PHARMACY NAME] partnered with Inmar to manage this drug take back program. The company has a long history as the industry leader in handling prescription and over-the-counter drug returns safely, securely and discreetly for major and regional chain drug stores as well as independent pharmacies and hospitals across the U.S.
