

HOUSEHOLD HAZARDOUS WASTE

Work Sheet: Identify & Classify Hazardous Household Products

Introduction

Common household products have words that identify their hazard level and hazard category.

Before You Begin

Depending on the size of your class, you will need to print one to two sets of the 26 product photos included in this worksheet. Group students into teams of three to four people with at least six photos for each group to identify.

Directions:

- 1 Divide the class into groups of three to four students.
- 2 As a class, review the hazardous product properties using the [Hazardous Signal Words and Product Properties Reference Sheet](#).
- 3 Distribute a minimum of six product photos to each group.
- 4 Review the directions and complete one sorting example together. Ask for questions before allowing students to begin.
- 5 For each product, look for hazardous property word(s) and signal word(s). Fill in the corresponding table with your findings. Remember, some products may have more than one hazardous property and some may have none.
- 6 When students have completed the Sorting Game, have them fill out the [Follow up/Discovery Questions](#) on the back of the [Hazardous Signal Words and Product Properties Reference Sheet](#) and be ready to share their findings with the rest of the class.

Follow-up Class Activity:

- 7 Following completion of the Follow up/Discovery Questions, allow the students about five minutes to complete the [Fill-in-the-Blank vocabulary page](#) as a team, helping students complete any unfinished sections.
- 8 Students who complete the [Fill-in-the-Blank](#) exercise have the option to move on to the [Word Search](#) exercise at the end of this lesson

HOUSEHOLD HAZARDOUS WASTE

Hazardous Signal Words and Properties Reference Sheet

Hazardous Signal Words

The signal words CAUTION, WARNING, DANGER or POISON are required by law to be on household products that are hazardous.

CAUTION

Slightly toxic either orally, dermally, or through inhalation. Causes slight eye or skin irritation.

WARNING

Moderately toxic either orally, dermally, or through inhalation. Causes moderate eye or skin irritation.

DANGER

Can cause severe eye damage or skin irritation.

POISON

Highly toxic by any route of entry into the body.

Hazardous Properties

Hazardous products have one or more of the following properties (that's what makes them hazardous):

Corrosive Corrosives are materials that can eat away and chemically destroy materials including living tissues.

Toxic Toxicity is the ability and strength of a substance to cause poisonous effects to living things if swallowed, inhaled, injected, or through contact with the skin.

Flammable/Combustible Flammable or combustible materials can catch on fire at relatively low temperatures. These materials don't always require a flame or a match to ignite. Heat, sparks, or static discharge may make them catch fire or even explode.

Reactive Reactive materials can react with air, water, or other substances to cause fire, explosions, or toxic gases.

HOUSEHOLD HAZARDOUS WASTE

Student Work Sheet: Identify & Classify Hazardous Household Products

Directions

- 1 Examine the labels on the products. Write any hazardous property words you find and mark which signal words are present. Remember, some products may have more than one hazardous property or signal words and some products may have none.

Product Name	Hazardous Property Words	Place an "X" to indicate the hazardous properties.			
		CAUTION	WARNING	DANGER	POISON

- 2 Now that you've played the Sorting Game, reflect on what you did. Here are few questions to get you thinking about any observations you may have.
 - i. Were you surprised that any of these products were hazardous? If so, what hazardous product surprised you most?
 - ii. After doing this exercise, can you identify any products in your home that you would like to replace?
 - iii. Have you or family been harmed by a product in your home?

Item No.

SPL_402_16

Heavy Metal Polish restores the brilliant shine to your heavily oxidized metalwork. Our metal polish is formulated with specialty cleaners to remove contamination and imperfections while restoring gloss and clarity. It's perfect for chrome, stainless steel, aluminum, silver and gold. Advanced polymer sealant protects your metalwork from the elements. Discover the true shine of your metalwork.

**CAUTION: EYE IRRITANT. HARMFUL IF SWALLOWED.
READ CAREFULLY OTHER CAUTIONS ON THE BACK PANEL.
KEEP OUT OF REACH OF CHILDREN**

16 US FL OZ [473 mL]

KEEP OUT OF REACH OF CHILDREN
DANGER: CORROSIVE.

FIRST AID: IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. **IF ON SKIN OR CLOTHING:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. **IN EITHER CASE, CALL A POISON CONTROL CENTER OR DOCTOR IMMEDIATELY FOR TREATMENT ADVICE.** See back panel for additional precautionary labeling.

MANTÉNGASE FUERA DEL ALCANCE DE LOS NIÑOS

PELIGRO: CORROSIVO.

PRIMEROS AUXILIOS: CONTACTO CON LOS OJOS: Mantenga los ojos abiertos y enjuague con agua lentamente, con cuidado, durante 15-20 minutos. Si hay lentes de contacto, retírelos después de los primeros 5 minutos, luego continúe enjuagando los ojos. **CONTACTO CON LA PIEL O LA ROPA:** Quítese la ropa contaminada. Enjuáguese inmediatamente la piel con abundante agua durante 15-20 minutos. **EN CUALQUIER CASO, LLAME A UN MÉDICO O A UN CENTRO DE CONTROL DE ENVENAMAMIENTO INMEDIATAMENTE PARA OBTENER ASESORIA SOBRE EL TRATAMIENTO.** Vea el panel posterior para precauciones adicionales de la etiqueta.

Las instrucciones y la información de precaución se pueden encontrar en español en el panel posterior. **Conditions surface by reducing soil adhesion vs. detergent alone**

DIRECTIONS FOR USE: It is a violation of Federal law to use this product in a manner inconsistent with its labeling. **DO NOT** use this product full strength for cleaning surfaces. Always dilute strictly in accordance with the directions. For prolonged use, wear gloves.

FOR LAUNDRY & WHITENING	Product	Water	Instructions
Bleachable Fabrics	1/2 Cup	Standard Machine	Sort laundry by color. Add detergent. Fill bleach to max line in dispenser or add 1/2 cup bleach to wash water. Add clothes and start wash.
Avoid bleaching wool, silk, mohair, leather, spandex and nonfast colors.	Max Line	HE Machine	
FOR LAUNDRY CLEANING & SANITIZING			
Bleachable Fabrics	2/3 Cup	Standard Machine	Sort laundry by color. Add detergent. Fill bleach to max line in dispenser or add measured amount of bleach to wash water. Add clothes and start wash.
Avoid bleaching wool, silk, mohair, leather, spandex and nonfast colors.	1/3 Cup	HE Machine	Ensure contact with bleach for 10 minutes.
FOR DISINFECTING & DEODORIZING HARD, NONPOROUS SURFACES			
Floors, Walls, Vinyl, Glazed Tiles, Bathtubs, Showers, Sinks, Hard Nonporous Toys	1/2 Cup	1 Gallon ¹ 3/4 Gallon ²	Prewash surface, mop or wipe with bleach solution. Allow solution to contact surface for at least 5 minutes. Rinse well and air dry.
Toilet Bowl	1/2 Cup	Toilet Bowl	Flush toilet. Pour this product into bowl. Brush bowl, making sure to get under the rim, and let solution stand for 5 minutes. Flush again.
FOR SANITIZING FOOD-CONTACT SURFACES			
Refrigerators & Freezers	2 tsp	1 Gallon	Remove food. Wash, rinse, wipe surface area with bleach solution for at least 2 minutes. Let air dry.
Food Contact Work Surfaces	2 tsp	1 Gallon	Wash, rinse, wipe surface area with bleach solution for at least 2 minutes. Let air dry.
Dishes, Glassware, Utensils	2 tsp	1 Gallon	Wash and rinse. After washing, soak for at least 2 minutes in bleach solution, drain and air dry.
FOR DEODORIZING			
Garbage Cans	1/2 Cup	1 Gallon	After washing and rinsing, brush inside with bleach solution. Let drain.
FOR MOLD AND MILDEW REMOVAL			
Hard, Nonporous Surfaces	3/4 Cup	1 Gallon	Prewash surface, wipe with bleach solution. Allow solution to contact surface for at least 10 minutes. Rinse well and air dry.
FOR HOSPITAL DISINFECTION			
	1/2 Cup	1 Gallon	Prewash surface, then apply bleach solution. Let stand 5 minutes. Rinse well and air dry.
DILUTION TABLE: PPM (Parts Per Million Available Chlorine). Degrades with age and exposure to sunlight and heat. Check the level of available chlorine with a test kit.			
1/3 oz. this product (2 tsp)	+ 1 gallon water	= 150 ppm	
Equivalent performance to 200ppm test standard for food-contact sanitization.			
4 oz. this product (1/2 cup)	+ 1 gallon water	= 1800 ppm	
4 oz. this product (1/2 cup)	+ 3/4 gallon water	= 2300 ppm	

This product can be used on hard, nonporous surfaces in commercial, institutional, hospital and household premises and eating establishments. This product is not to be used as a terminal/sterilant/high-level disinfectant on any surface or instrument that (1) is introduced directly into the human body either into or in contact with the bloodstream or normally sterile areas of the body, or (2) contacts intact mucous membranes but does not ordinarily penetrate the blood barrier or otherwise enter normally sterile areas of the body. This product may be used to pre-clean or decontaminate critical or semicritical medical devices prior to sterilization or high-level disinfection.

PRECAUTIONARY STATEMENTS: HAZARDS TO HUMANS AND DOMESTIC ANIMALS.

DANGER: CORROSIVE. Causes irreversible eye damage and skin burns. Harmful if swallowed. Do not get in eyes, on skin or on clothing. Wear protective eyewear and rubber gloves when handling this product. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using the restroom. Avoid breathing vapors and use only in a well-ventilated area. Remove and wash contaminated clothing before reuse. **FIRST AID: IF IN EYES:** Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice. **IF ON SKIN OR CLOTHING:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice. **IF SWALLOWED:** Have person sip a glassful of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person. **NOTE TO PHYSICIAN:** Probable mucosal damage may contraindicate the use of gastric lavage. Call a poison control center or doctor immediately for further treatment advice. Have product container or label with you when calling a poison control center or doctor, or going for treatment. Clorox Information Line: 1-800-292-2200. **PHYSICAL OR CHEMICAL HAZARDS:** Product contains a strong oxidizer. Always flush drains before and after use. **Do not use or mix with other household chemicals,** such as toilet bowl cleaners, rust removers, acids or products containing ammonia. To do so will release hazardous irritating gases. **ENVIRONMENTAL HAZARDS:** This product is toxic to fish, aquatic invertebrates, oysters and shrimp. **Do not** cause damage to septic and waste water treatment systems.

STORAGE AND DISPOSAL: Store away from children. Reclose cap tightly after each use. Store this product upright in a cool, dry area, away from direct sunlight and heat to avoid deterioration. In case of spill, flood areas with large quantities of water. Do not contaminate food or feed by storage, disposal or cleaning of equipment. **PRODUCT DISPOSAL:** Product or rinsates that cannot be used must be diluted with water before disposal in a sanitary sewer. **CONTAINER HANDLING:** Nonrefillable container. Do not reuse or refill this container. Recycle empty container or discard in trash.

PRECAUTIONARY STATEMENTS: HAZARDS TO HUMANS AND DOMESTIC ANIMALS.

CAUTION, Causes moderate eye irritation. Avoid contact with eyes, skin or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. Remove and wash contaminated clothing before reuse. **FIRST AID: IF IN EYES:** Hold eye open and rinse slowly and gently with water for 15–20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. **IF ON SKIN OR CLOTHING:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15–20 minutes. Call a poison control center or doctor for treatment advice. Have the product container or label available when calling a poison control center or doctor, or when going for treatment. Questions? Call 1-800-227-1860. **PHYSICAL OR CHEMICAL HAZARDS:** Do not use or mix with bleach-containing products or other household cleaners. **COMBUSTIBLE:** Do not use or store near heat or open flame.

STORAGE AND DISPOSAL: Store in a cool, dry area. Nonrefillable container. Do not reuse or refill this container. Offer for recycling, if available, or place in trash collection.

A family company since 1886. *Fisk Johnson*

Raid Max® Ant & Roach kills roaches in two ways: (1) It kills bugs fast—on contact and (2) it keeps on killing with residual action even after you spray, for up to 6 months.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

FOR HOUSEHOLD USE: SHAKE WELL BEFORE EACH USE. Hold container upright. Do not spray up into air. Apply to surfaces only. Point spray opening toward surface to be sprayed and press button firmly. Hold about 12" from surface being sprayed. Spray until surfaces are wet. Avoid excessive wetting of asphalt, tile, rubber and plastic materials. To maintain control on plywood surfaces, re-treat every 4 weeks. On all other surfaces, re-treat every 6 months. **ROACHES, WATERBUGS:** Using attached applicator wand, spray until wet in cracks around baseboards and other hiding places. When bugs are driven out, spray directly. **ANTS:** Apply to ant trails, also around doors, windows and wherever ants enter house. **SILVERFISH, CRICKETS, SPIDERS:** Spray areas infested by these pests.

STORAGE AND DISPOSAL

STORAGE: Store away from heat or open flames, in an area inaccessible to children. **DISPOSAL:** Do Not Puncture or Incinerate! If empty: This container may be recycled in the few but growing number of communities where steel aerosol can recycling is available. Before offering for recycling, empty the container by using the product according to the label. If recycling is not available, place in trash. If partially filled: Call your local solid waste agency or 800-529-3394 for disposal instructions.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION: Causes moderate eye irritation. Avoid contact with eyes or clothing. Wash thoroughly with soap and water after handling. Do not apply to humans, pets, plants or contaminate feed, foodstuffs, dishes or utensils. Remove pets and birds and cover aquariums. Cover or remove exposed food, dishes, utensils and food handling equipment.

FIRST AID

Have the product container or label with you when calling a poison control center or doctor, or going for treatment advice. **IF IN EYES:** Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice. **IF SWALLOWED:** Immediately call a poison control center or doctor. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give any liquid to the person. Do not give anything by mouth to an unconscious person. **NOTE TO PHYSICIAN:** Contains petroleum distillate—vomiting may cause aspiration pneumonia.

PHYSICAL OR CHEMICAL HAZARDS: FLAMMABLE, CONTENTS UNDER PRESSURE.

Keep away from heat, sparks, open flame or pilot lights. Do not puncture or incinerate container. Exposure to temperatures above 130°F may cause bursting.

Raid Max® Hormigas y Cucarachas mata cucarachas de dos maneras: (1) Mata a los insectos rápidamente al contacto y (2) sigue matando con acción residual, incluso después de que usted ha rociado, por un período de hasta 6 meses.

INSTRUCCIONES PARA EL USO

Es una infracción de las leyes Federales el usar este producto de una manera que no esté de acuerdo con esta etiqueta.

USO EN EL HOGAR: AGITE BIEN ANTES DE USARLO. Mantenga la lata en posición vertical. No rocíe hacia arriba en el aire. Aplíquelo solamente a superficies. Dirija el rociador hacia la superficie a rociar y oprima firmemente el pulsador. Manténgalo a unas 12 pulgadas (unos 30 cm) de la superficie que se está rociando. Rocíe hasta que las superficies estén mojadas. Evite mojar excesivamente en asfalto, azulejos y materiales de hule y plástico. Para mantener el control en superficies de madera contrachapada, trátelas de nuevo cada 4 semanas. En todas las demás superficies, vuévalas a tratar cada 6 meses. **CUCARACHAS, CHINCHES DE AGUA:** Usando la varita aplicadora adjunta, rocíe, hasta que estén mojadas, las rendijas alrededor de los rodapiés y otros lugares donde se puedan ocultar. Cuando, debido a esto, los insectos salen, rocíelos directamente. **HORMIGAS:** Rocíe las rutas que utilizan las hormigas, así como alrededor de puertas, ventanas y cualquier lugar por el que entren las hormigas a la vivienda. **LEPISMAS, GRILLOS, ARAÑAS:** Rocíe las áreas infestadas por estas plagas.

ALMACENAMIENTO Y ELIMINACIÓN

ALMACENAMIENTO: Almacenar lejos del calor o de zonas donde haya llamas expuestas y en áreas a las que los niños no tengan acceso.

ELIMINACIÓN: ¡No Perfore Ni Incinere el Envase! Si está vacío: Este envase puede reciclarse en una de las comunidades, escasas pero cada vez más numerosas, donde se dispone de reciclaje de envases de aerosol de acero. Antes de ofrecerlo para reciclaje, vacíe el envase utilizando el producto de acuerdo con las instrucciones de la etiqueta. Si no se puede reciclar, deséchelo en la basura. Si el producto está parcialmente lleno: Llame a su agencia local de recolección de desechos sólidos o al 800-529-3394 para instrucciones de eliminación.

DECLARACIONES DE PREVENCIÓN RIESGOS PARA LOS SERES HUMANOS Y ANIMALES DOMÉSTICOS

PRECAUCIÓN: Causa una irritación moderada en los ojos. Evitar el contacto con los ojos y la ropa. Lávese bien con jabón y agua después de usarlo. No lo aplique a seres humanos, mascotas y plantas, ni contamine comida de animales, alimentos, platos o utensilios. Saque las mascotas y pájaros y cubra las peceras. Cubra o quite los alimentos expuestos, platos, utensilios y equipo con el que se manejan alimentos.

PRIMEROS AUXILIOS

Tenga en sus manos el envase o la etiqueta del producto cuando llame al centro de control de envenenamientos o al médico para un consejo de tratamiento. **EN LOS OJOS:** Mantenga el ojo abierto y enjuáguelo con agua despacio y suavemente durante 15-20 minutos. Si tiene lentes de contacto, quíteselos después de los primeros 5 minutos.

Luego, siga enjuagando. Llame a un centro de control de envenenamiento, o al médico, para recibir consejos sobre tratamiento. **SI SE INGIERE:** Inmediatamente llame al centro de control de envenenamientos o al médico. No induzca vómito a menos que se lo haya dicho el centro de control de envenenamientos o el médico. No de ningún líquido a la persona. No de nada por la boca a una persona inconsciente. **NOTA PARA EL MÉDICO:** Contiene destilado de petróleo—vomitar puede causar neumonía por aspiración.

RIESGOS FÍSICOS O QUÍMICOS INFLAMABLE, CONTENIDO BAJO PRESIÓN. Manténgase alejado del calor, chispas, llamas o llamas de piloto. No perfore ni incinere el recipiente. La exposición a temperaturas por encima de los 130°F (54°C) puede causar explosión.
