Mental Health Services Act (MHSA)

Background

Proposition 63, now known as the Mental Health Services Act (MHSA), was approved by California voters in November 2004 and provided dedicated funding for mental health services by imposing a 1% tax on personal income over one million dollars translating to about $23 million average for San Mateo County annually in the last four years through Fiscal Year 2015-16.

Principles and Funding Boundaries

MHSA emphasizes transformation of the mental health system while improving the quality of life for individuals living with mental illness by providing funding for effective treatment, prevention and early intervention, outreach support services and family involvement, and programs to increase access and reduce inequities for unserved, underserved and inappropriately served populations. MHSA core values include:

- Community collaboration
- Cultural competence
- Consumer and family driven services
- Focus on wellness, recovery, resiliency
- Integrated service experience for clients and family members

MHSA provides funding for Community Program Planning (CPP) activities, which include extensive stakeholder processes in planning, implementation and evaluation. MHSA funded programming and activities are grouped into “Components” each one with its own set of guidelines and rules:

<table>
<thead>
<tr>
<th>Community Services and Supports (CSS)</th>
<th>Prevention and Early Intervention (PEI)</th>
<th>Innovative Programs (INN)</th>
<th>Workforce Education and Training (WET)</th>
<th>Capital Facilities and Information Technology (CF/IT)</th>
<th>Housing</th>
</tr>
</thead>
</table>

MHSA funding is allocated as follows across the components:

- CSS: 75-80% of funds with at least 51% on the most acute clients through Full Service Partnerships
- PEI: 15-20% with at least 51% on ages 0-25 and not on individuals who are already known to have a mental illness, with one exception: early onset of psychotic disorders.
- INN: 5% of the county’s annual PEI and CSS funds
- One-time funds were allocated to WET, CF/TN, and Housing

San Mateo County Approach

In San Mateo County, MHSA dollars are virtually everywhere in the BHRS system, which means they are highly leveraged. MHSA-funded activities further BHRS’ nine strategic initiatives to advance Prevention and Early Intervention; build Organizational Capacity; empower Consumers and Family Members; Disaster Preparedness; enhance Systems and Supports; foster Total Wellness; promote Diversity and Equity; cultivate Learning and Improvement; and be Welcoming and Engaging to those who seek our services and work with us.

Program and Expenditure Planning

Counties are required to prepare for and submit a Three-Year MHSA Plan and Annual Updates.

The **MHSA Three-Year Plan** is developed in collaboration with clients and families receiving services, community members, staff, community agencies and other stakeholder to describe programs and services that will be funded by MHSA and prioritizes any new programs, strategies and/or expansions. It includes the following elements:

1. Existing MHSA funded program descriptions and goals for each of the required MHSA components\(^1\)
2. Priority needs or gaps in services as identified by the planning process. These are implemented year round if funding becomes available\(^2\)
3. Expenditure projections based on estimated revenues and unspent funds

Each Three-Year Plan development honors and builds upon existing funded programs and input received through previous planning. MHSA funded programs are evaluated throughout their implementation, adjustments are made as needed and outcomes shared to inform recommendations about continuing and or ending a program. All agencies funded to provide MHSA services go through a formal Request for Proposal (RFP) process to ensure an open and competitive process. To receive notification of BHRS funding opportunities, please subscribe at [www.smchealth.org/rfps](http://www.smchealth.org/rfps).

**Stakeholder and Community Input**

MHSA planning uses a Community Program Planning (CPP) process to engage clients and families experiencing mental health, drug and alcohol issues and other stakeholders, in each phase of the process.

The type of input for the development of the MHSA Three-Year Plan can include:

- Highlighting what’s working well (programs, program components, efforts)
- Identifying what needs improvement, what’s missing from both the CPP and services
- Prioritizing identified needs for potential future funding
- Developing ideas to address priority needs and potentially serve as the basis for future RFPs

Input is gathered at existing community meetings, specific input sessions, through surveys, and as formal public comment during the required 30-Day Public Comment and Public Hearing for the Annual Updates and Three-Year Plan. To receive notification of input opportunities please subscribe at [www.smhealth.org/mhsa](http://www.smhealth.org/mhsa).

**Current Timeline**

- **Three-Year Plan Implementation**: July 1, 2014 – June 30, 2017
- **Annual Updates Due**: December 2015, December 2016, December 2017
- **Next Three-Year Planning Phase**: January 2017 – June 2017
- **Next Three-Year MHSA Plan Due**: December 2017

---

\(^1\) See [www.smchealth.org/mhsa](http://www.smchealth.org/mhsa) Plan and Components section for a description of each required component.

\(^2\) Counties receive monthly MHSA allocations based on actual accrual of tax revenue, making it difficult to know exact allocations of funding that will be available for new programs and/or priority strategies or expansions. This means RFP’s for new programs can be released at any time within the Three-Year Plan implementation.
