

Robert Telfer Memorial Lecture

Mills-Peninsula Health Services and health care community would like to honor Robert Telfer, MD for his 43 years of dedication and expertise in neurology and stroke care. Robert Telfer has touched many lives with his commanding presence, quiet confidence and sense of humor. Robert Telfer lead MPHS to become the first Primary Stroke Center in San Mateo County. After his retirement, he continued to educate the community on stroke prevention and care through lectures and active participation with the Pacific Stroke Association.
