BOARD OF DIRECTORS MEETING

Thursday, February 1, 2018
8:00 AM – 10:00 AM

SAN MATEO MEDICAL CENTER

EXECUTIVE BOARD ROOM

Second Floor, Administration Wing
BOARD OF DIRECTORS MEETING
February 1, 2018        8:00 – 10:00 AM
Executive Board Room – Second Floor, Administration Wing

AGENDA

A. CALL TO ORDER

B. CLOSED SESSION
   Items Requiring Action
   1. Medical Staff Credentialing Report  Dr. Bryan Gescuk
   2. Quality Report  Dr. Janet Chaikind

   Informational Items
   3. Medical Executive Committee  Dr. Bryan Gescuk

C. REPORT OUT OF CLOSED SESSION

D. PUBLIC COMMENT
   Persons wishing to address items not on the agenda

E. FOUNDATION REPORT  Leslie Williams-Hurt

F. CONSENT AGENDA  TAB 1
   Approval of:
   1. January 4, 2018 Meeting Minutes
G. MEDICAL STAFF REPORT

Chief of Staff Update  
Dr. Bryan Gescuk

H. ADMINISTRATION REPORTS

1. Laboratory Services  
Dr. Susan Fernyak .................Verbal

2. Compliance and Privacy Update  
Dr. CJ Kunnappilly.................Verbal

3. Flu Update  
Louise Rogers ......................Verbal

J. COUNTY MANAGER’S REPORT  
John Maltbie

K. BOARD OF SUPERVISOR’S REPORT  
Supervisor Carole Groom

L. ADJOURNMENT

Meetings are accessible to people with disabilities. Individuals who need special assistance or a disability-related modification or accommodation (including auxiliary aids or services) to participate in this meeting, or who have a disability and wish to request an alternative format for the agenda, meeting notice, agenda packet or other writings that may be distributed at the meeting, should contact Michelle Lee, Executive Secretary, at least 48 hours before the meeting at (650) 573-2222 and/or mlee@smcgov.org. Notification in advance of the meeting will enable the County to make reasonable arrangements to ensure accessibility to this meeting and the materials related to it. Attendees to this meeting are reminded that other attendees may be sensitive to various chemical based products.

AGENDA
# HOSPITAL BOARD OF DIRECTORS
## MEETING MINUTES
### Thursday, January 4, 2018
#### Executive Board Room

### Board Members Present
- Supervisor David Canepa
- John Maltbie
- Louise Rogers
- Dr. CJ Kunnappilly
- Dr. Janet Chaikind
- Dr. Julie Hersk
- Deborah Torres

### Staff Present
- Michelle Lee
- David McGrew
- Dr. Susan Fernyak
- Peggy Jensen
- Dr. Alpa Sanghavi
- Dr. Bob Cabaj

### Members of the Public
- Leslie Williams-Hurt
- Angela Gonzalez
- Dr. Alpa Sanghavi
- Dr. Bob Cabaj

</thead>
<tbody>
<tr>
<td>Call to Order</td>
<td>Supervisor Canepa called the meeting to order at 8:00 AM, and the Board adjourned to Closed Session.</td>
<td></td>
</tr>
<tr>
<td>Reconvene to Open Session</td>
<td>The meeting was reconvened at 8:19 AM to Open Session. A quorum was present (see above).</td>
<td></td>
</tr>
<tr>
<td>Report out of Closed Session</td>
<td>Medical Staff Credentialing Report for January 4, 2018. QIC Minutes from November 28, 2017. Medical Executive Committee Minutes from December 12, 2017.</td>
<td>Aimee Armsby reported that the Board unanimously approved the Credentialing Report and the QIC Minutes and accepted the MEC Minutes.</td>
</tr>
<tr>
<td>Public Comment</td>
<td>None.</td>
<td></td>
</tr>
<tr>
<td>Foundation Report</td>
<td>Leslie Williams-Hurt reported that the Foundation Board has agreed to raise $500,000 to support the Rehabilitation Services Relocation Plan. The Foundation’s website has been redesigned, <a href="http://www.smchf.org">www.smchf.org</a>.</td>
<td>FYI</td>
</tr>
<tr>
<td>Consent Agenda</td>
<td>Approval of: 1. Hospital Board Meeting Minutes from November 2, 2017. 2. Bylaws of the SMMC Board of Directors</td>
<td>It was MOVED, SECONDED and CARRIED unanimously to approve the November 2, 2017 Minutes.</td>
</tr>
</tbody>
</table>
| Medical Staff Report  
Dr. Julie Hersk | The Medical Staff Member at Large elections are in process and results will be reported at the next meeting.  
Dr. Hersk will be working on a special medical project overseas for an extended period and Dr. Janet Chaikind will assume her role temporarily. | FYI |
| --- | --- | --- |
| Medicine Department  
Dr. Frank Trinh | The Medicine Department had 19,879 medical clinic visits and 2,537 hospital admissions.  
Sepsis is:  
- A life-threatening complication of a bloodstream infection  
- Chemicals that are released into the bloodstream to fight the infection trigger inflammatory responses which can damage multiple organs  
- If sepsis progresses to septic shock, blood pressure drops dramatically, which may lead to death  
- Early recognition and treatment of sepsis improves survival  
One of the department’s measures is sepsis compliance which rose to 70.7% (national rate is 40-47%) in 2017 from 68.3% in 2016. The mortality rate is 9.8% (national rate is approximately 25%).  
Ongoing Projects:  
- SMARTT referral system  
- Model Cell for specialty referrals  
- Relationship-centered communications training  
- Hospitalist service transition | FYI |
| Burlingame Long Term Care  
Admissions and Discharges 2017 | | FYI |
• In the first six months, we discharged 220 residents and in the last six months, the facility discharged 109 residents. Of all discharged residents, some found placement through assistance from the Institute on Aging (IOA). The facility continues to collaborate and coordinate with IOA and other community support services for appropriate placement of residents.

Anti-Psychotic Medication Utilization
• The facility tracks and trends the rates of quality measures through the Quality Assurance and Performance Improvement (QAPI) system. Two quality measures are the facility’s use of anti-psychotic medications and the number of resident falls.
• There is a higher rate than the state and company (Rockport) averages in the use of anti-psychotics because many residents admitted to the facility have existing psychiatric diagnoses and/or has dementia with psychotic features.

Dementia Care and Falls Prevention Program
• The facility continues to implement the Dementia Fall Prevention program conducts utilization and assessment of a resident’s fall risk upon admission so we can implement prevention measures.
• The Interdisciplinary Team (IDT) committee will continue to oversee the program and discuss root-cause analysis (RCA) post-fall.

Antibiotic Stewardship Program
• We continue to implement the Antibiotic Stewardship program since its introduction last year. The program aims to promote the appropriate use of antimicrobials, including antibiotics, improve patient outcomes, and decrease the spread of infections caused by multidrug-resistant organisms.
• We saw a significant change in the use of antibiotics recently. Our focus is to continue collaborating with SMMC’s antibiotic stewardship program to improve facility-specific goals.

Ambassador Program
• The Ambassador Program is a monthly rounding system where we ask residents specific questions related to customer service such as response to call lights, pain management, cleanliness, and meals.
• Since February 2017, patient experience scores have improved.

Early Intervention for Psychosis and Bipolar Dr. Bob Cabaj
Why is early intervention important?
• Raise social awareness and reduce stigma
• Improved quality of life including possibility of remission of illness
• Prevent the onset of chronic and disabling illness
• Better response to medication and less likely to relapse
• Reduce hospitalizations
• Increased engagement with community (education, employment, and services)
Population served are individuals aged 14-35 within the first two years of experiencing psychotic symptoms. Eligible diagnoses include Schizophrenia, Schizoaffective Disorder, Schizophreniform Disorder, Unspecified Schizophrenia Spectrum Disorder and Other Psychotic Disorders.

Improved Quality of Life
- Undesired Perceptual Experiences and Unusual Beliefs reduced by 67% after 1st year of treatment and an additional 71% after 2nd year of treatment. Amotivation, Asociality, Alogia, and Attention Problems were reduced by 70% after 1st year of treatment and an additional 100% after 2nd year of treatment.
- 56% reduction in PES Visits; 54% reduction in hospitalizations; 38% reduction in hospital days.

Financial Report
David McGrew, CFO
The November FY17/18 financial report was included in the Board packet and David McGrew answered questions from the Board.

CEO Report
Dr. CJ Kunnappilly, CEO
Dr. Kunnappilly presented the CEO report which was included in the Board packet and answered questions from the Board. Surveys for 2017 were distributed to board members for self-evaluation.

Health System Report
Louise Rogers
Open enrollment has begun and the Health System lead social media outreach which had a reach of 37,000 people, thanks in part to the support of local and state partners.
The Cordilleras Replacement Project has selected Cannon Design for architectural and engineering services.

County Manager
John Maltbie
John Maltbie announced that he will be retiring at the end of the calendar year. Two other retirements mentioned were Reyna Farrales, Deputy County Manager and Jim Saco, County Budget Manager.

Board of Supervisors
Supervisor Canepa
No report.

Supervisor Canepa adjourned the meeting at 9:43 AM. The next Board meeting will be held on February 1, 2018.

Minutes recorded by: Michelle Lee, Executive Secretary

Minutes approved by: Dr. Chester Kunnappilly, Chief Executive Officer
TAB 2

ADMINISTRATION REPORTS
December FY 2017-2018
Financial Report

Board of Directors Meeting
February 1, 2018
Forecast FY18: The new Managed Care Rule enacted by CMS eliminates several supplemental revenue streams. CAPH and DHCS are working on two replacement programs - EPP/QIP and Voluntary Rate Range, which, after CMS approval, is expected to bring us back to budget by year-end.

December - Positive $161k:
- FTEs below budget
- Timing of WPC, capital and IGT expenditures
- Voluntary Rate Range
- Patient service revenue
- Claim denials
The revenue collection rate continues to be negatively impacted by high administrative days, lower Medi-Cal rates for skilled nursing facility patients at SMMC and BLTC, various claim denials and delays in billing resulting from compliance related bill-holds.
Key Performance Indicators

Medical Necessity Retro Reviews
(Inter-Rater Reliability)

Claims are held pending a review of medical necessity for compliance with acute inpatient billing rules. The retro review process has identified a cumulative error rate of 20%, which is being addressed with weekly variance reviews and focused training and monitoring. Implementation of a CDI program will further support these efforts.
Key Performance Indicators

Cash - Rolling 12 Months

% of A/R Over 180 Days - Rolling 12 Months

A/R Days - Rolling 12 Months

Total Unbilled Amount

- Emergency and PES slightly under budget
EXCELLENT CARE
PILLAR METRICS

- **SMMC Pain Clinic Recognized with County STARS Award** - The SMMC Pain Clinic received recognition (and a $20,000 award) as a STARS Award winner in the area of Program Performance. The program was officially recognized at the January 23rd Board of Supervisors meeting. The interdisciplinary model has been recognized as a best practice in complex pain management. It is one of the only programs of its kind in Northern California and is the only one located in a public hospital. Congratulations to the entire Pain Clinic team for this well-deserved honor.

- **Stacy Glocke, RN to Present at State Meeting** - Stacy Glocke, Clinical Nurse Educator in the Emergency Department, this month will present at a state chapter meeting of the American Organization of Nurse Executives. Her presentation highlights the work SMMC clinical nurse leaders and physicians did with the mentorship of Stanford physicians and nurses in introducing simulation training for pediatric emergencies. Most pediatric patients presenting to community hospital emergency departments do not require interventions for life threatening conditions, so when a pediatric patient who is acutely ill does present at our emergency department our staff are trained through simulations every month to meet the most acute situations. Thank you to our colleagues at Stanford for their partnership and congratulations to Stacy!

- **SMMC CNO to Present at State Annual Conference** - Joan Gygax Spicer, RN, PhD, Chief Nursing Officer/Deputy Director of Inpatient Services is presenting at the Association of California Nurse Leaders Annual Conference in Monterey. This conference is one of the largest gatherings of nurses in California. Joan will be highlighting the use of the SMMC Nursing Practice Framework as a tool for nurses to support the strategic direction of a safety net health system.
PATIENT CENTERED CARE
PILLAR METRICS

- **SMMC Provider Communication Program Recognized with Honorable Mention in County STARS Awards**: The medical center’s Relationship-Centered Provider Communication Training Program was recognized with an Honorable Mention (and $2500 award) in the STARS Award area of Customer Service. The program has trained over 130 providers including 90% of Primary Care Providers in Relationship-Centered Communication skills using learner-centric principles and role play with real-time feedback. Congratulations to everyone involved in this highly successful model.

- **Health System Transgender Health Care Program Recognized with Honorable Mention in County STARS Awards**: The Health System’s work in Transgender Health Care was recognized with an Honorable Mention (and $2500 award) in the area of Diversity. The Transgender Health Clinic, a collaboration among several San Mateo County Health System programs including SMMC specialty and primary care staff, is a monthly medical clinic for transgender patients, with mental health, nursing support, scheduling, and social work case management services available between clinic dates. The clinic which began providing services in July of 2016 utilizes a broad interdisciplinary team to address all the needs of our transgender clients. Congratulations and thank you to the entire team that makes this program possible.
STAFF ENGAGEMENT
PILLAR METRICS

- **SMMC Sees Record Participation in County Engagement Survey** - 765 members of the San Mateo Medical Center Staff participated in the most recent county engagement survey. This is an 11% increase from last year and an all-time high for the organization. We are currently in the process of receiving and analyzing the results of the survey so that we can identify the best opportunities to continue our journey to fulfill our goal of being “a great place to work where we are passionate about serving our community.”

- **Staff with Multiple Recognitions by Colleagues and Patients Celebrated at Employee Forums** - The quarterly staff forums occurred the week of January 15th and I had the privilege of recognizing those staff members who had received five or more submissions in either of our recognition programs. The Just Because Program allows patients to identify staff members who they feel have provided exceptional service. This quarter we recognized Edouard Aboian (Vascular Surgery), Angelica Cervantez (Patient Access), Wendy Fung (Coastside Dental) and Geri Vaughn (FOHC Dental) who all received five or more patient recognitions. The Above and Beyond Program allows staff members to recognize their colleagues’ efforts. This quarter, Blanca Lemus (Fair Oaks Health Center), Cindy Morales (Pain Management Clinic) and Martin Rogers (Accounting) received five or more submissions. Congratulations again to all of these individuals and to everyone who has been recognized in either program.

- **SMMC Announces Excellence Awards Recipients** - Every year, staff and providers nominate their peers for the SMMC Excellence Awards which recognizes those who exemplify excellence in their profession. I would like to congratulate the following 2017 recipients and thank them for their outstanding dedication to our patients and community.

  **Change Champion**
  Sara Okabayashi-Williams, Nurse Practitioner, Daly City Clinic

  **Leader Excellence**

**Flu Season Hits SMMC** - Flu season hit early this year throughout the country and San Mateo County was no exception. Hospitals throughout the county saw significant increases in both ED volume and hospitalizations. SMMC saw a 21% increase in ED volume starting at the end of December and all of our inpatient beds remained consistently full throughout this period. We were forced to cancel some elective surgeries to ensure both bed availability and to protect those recovering patients from potential flu exposures. Although the challenge is far from over, I want to again take this opportunity to thank all the staff who have worked valiantly to ensure that every patient receives the care they need during this difficult flu season.
FINANCIAL STEWARDSHIP

PILLAR METRICS

- **Revenue Cycle Transformation – FY18 Initiatives**

  Our FY17-18 Financial Stewardship strategic initiative continues to focus on the revenue cycle, building on last year’s front-end work with insurance verification accuracy and inpatient authorization approvals. In addition we added a focus on ensuring our providers are enrolled with Medicare and Medi-Cal in a timely manner to eliminate payment denials.

  An important element of transforming the revenue cycle is the replacement of our outdated Invision patient billing system; bringing new technology, enhanced functionality, automated workflows and actionable reporting. Planning is underway to integrate this replacement in conjunction with EHR 2.0.

  This work is driven by collaborative teams developing nested charters for registration accuracy, authorizations for same day surgeries, and provider enrollment. Each nested charter process owner convened cross-functional teams to update the background, needs statement and current condition as the foundation for the work. A key component in this effort was identifying the measures to track to let us know whether our actions are yielding improvements. For our overall charter, the team identified the following measures for FY18:

<table>
<thead>
<tr>
<th>Measures:</th>
<th>Baseline value (6/30/17)</th>
<th>Current Value (12/31/17)</th>
<th>Budget Value (FY17-18)</th>
<th>Ideal Value</th>
</tr>
</thead>
<tbody>
<tr>
<td>Revenue per member per month (pmpm)</td>
<td>$119</td>
<td>$130</td>
<td>$150</td>
<td>$398</td>
</tr>
<tr>
<td>Claim denials (&lt; 4% NPR)</td>
<td>$4.4 million</td>
<td>TBD</td>
<td>$4.0 million</td>
<td>No Denials</td>
</tr>
<tr>
<td>Unbilled accounts (5-day bill hold)</td>
<td>$8.6 million</td>
<td>$11.1 million</td>
<td>$5.5 million</td>
<td>No Unbilled</td>
</tr>
</tbody>
</table>

The Registration Accuracy nested charter encompasses the activities to ensure all the required registration data elements for accurate billing will be collected as early in the patient contact cycle as possible, typically before the patient arrives for services. The most significant gaps identified in the current state assessment are the lack of adequate reporting tools for quality assurance, lack of work queue tools to manage workflow prioritization, and inefficient structure of insurance plan codes. Two of these gaps can be addressed through technology to
automate work that is done manually today and this will be a focus area for the next several months as we evaluate front-end automated tools in advance of the Invision system replacement.

- **Medi-Cal 2020 Waiver: Alternative Payment Models**
  The PRIME program of Medi-Cal 2020 supports sustainable delivery system reform through a requirement that California’s public health care systems use alternative payment models (APMs) in which providers assume some risk for the cost and quality of services provided to the Medi-Cal managed care enrollees who are assigned to these health care systems. APMs aim to further align payments with the goal of value-based care, rather than volume-based care.
  PRIME requires that by January 2018, 50% of the state’s Medi-Cal managed care beneficiaries who are assigned to a public health care system will receive all or a portion of their care under a contracted APM, or funding will be at risk.
  We currently have the framework for the APM requirement through contracts with HPSM for Primary Care capitation and a Pay-For-Performance program. To fully address the new PRIME APM requirements, we recently entered into a Shared Savings Program with HPSM that is designed to share in savings derived from a collaborative approach to drive down healthcare costs. We will report the progress of this program at future Board meetings.

- **Revenue Integrity and Compliance**
  Our Finance team, in conjunction with SMMC’s Compliance and Privacy Officer, launched an assessment of compliance and operational risks and gaps in our revenue cycle processes. Also known as “revenue integrity”, the goal of which is to ensure we are billing and collecting for every dollar we are entitled to in a manner that is fully compliant with governmental laws and regulations. To assist us in the assessment we engaged the CPA firm of Moss Adams, who provided an independent assessment that focused on crucial requirements that need to be added or strengthened in our compliance program plans, activities, or policies and procedures. Specifically, they addressed the following:
  - Current compliance and revenue integrity program strengths.
  - Maturity scale result for each of the OIG’s Seven Essential Elements of an effective compliance program.
  - Opportunities for compliance program improvement.
  - Proposed recommendations to improve compliance effectiveness and corrective actions.

The Finance team and Compliance Officer will share the findings with the County Controller and Internal Audit division to integrate the findings from this assessment into the County-wide risk assessment.

Health System Promotes Bay Area Flu Prevention Response

As emergency department (ED) visits rose sharply in hospitals throughout San Mateo County in December and January with patients reporting flu-like symptoms, the Health System urged the public to get a flu vaccine and to take additional measures to prevent the spread of the disease. The information was distributed through social media, public service announcements on Spanish-language radio, and a press release. The next day, Health System Communications saw a significant increase in press inquiries about the flu. Communications also worked with Supervisor David Canepa’s office to publish a personal testimonial from the Supervisor expressing the importance of getting the flu vaccine. Interim Communicable Disease Controller David Chang was interviewed by multiple news outlets, including KGO and KRON4. SMMC Medical Director Jeanette Aviles was interviewed in Spanish on Univision 14. We also created a short (5-minute) filmed conversation between Director of Public Health, Policy & Planning Cassius Lockett and Health Officer Scott Morrow [right] talking about flu in San Mateo County to visually and verbally share key flu prevention messages. On social media as of mid-January, the Health System’s flu campaign content reached 73,000 views since it began in September, 2017. The first half of January, 2018 saw ED patient volume at SMMC increase by 21% compared to a similar period in December. Health officials continue to monitor the situation closely.

Health System Continues Commitment to California Counties in Response to Wildfires

As California endures the devastating wildfires and their aftermath, the Health System continues to provide Mutual Aid support for both Sonoma and Santa Barbara Counties. In December, Health System Communications sent one staff member to Santa Barbara County’s Emergency Operations Center [right] during the Thomas Fire, while Environmental Health Services sent two additional staff members to assist with the massive cleanup efforts in Sonoma County. To date, over 30 Health System staff have deployed in support of our neighboring counties. Mutual aid applications have also been submitted by Health System staff to assist in Santa Barbara County’s recent mudslide disaster.

San Mateo County Expands Racial Equity Education Opportunities

A year after San Mateo County began its involvement with the Government Alliance for Racial Equity (GARE), the Health System celebrated the completion of its first staff training for 13 managers and supervisors from 7 divisions with a graduation ceremony [below] in December. In alignment with San Mateo County’s Diversity and Inclusion initiative, the Health System joined this national effort to build government’s capacity to promote racial equity to help ensure that everyone in San Mateo County has equitable opportunities to be healthy. The Health System is one of over a dozen jurisdictions in California to have participated in GARE over the past year. The next phase of this effort is to survey Health System staff to better understand general knowledge of, experiences with, and comfort in addressing racial equity issues. These surveys will help to inform future staff trainings across the Health System.
