## COVID-19 General Checklist for Expanded Personal Care Services

July 2, 2020

This checklist is intended to help expanded personal care services implement their plan to prevent the spread of COVID-19 in the workplace and is supplemental to the [Guidance for Expanded Personal Care Services](#). This checklist is a summary and contains shorthand for some parts of the guidance; familiarize yourself with the guidance before using this checklist.

### Contents of Written Workplace Specific Plan

- ☐ The person(s) responsible for implementing the plan.
- ☐ A risk assessment and the measures that will be taken to prevent spread of the virus.
- ☐ Use of face coverings, in accordance with the [CDPH guidance](#).
- ☐ Training and communication with workers and worker representatives on the plan.
- ☐ A process to check for compliance and to document and correct deficiencies.
- ☐ A process to investigate COVID-cases, alert the local health department, and identify and isolate close workplace contacts of infected workers.
- ☐ Protocols for when the workplace has an outbreak, in accordance with [CDPH guidance](#).

### Topics for Worker Training

- ☐ Information on [COVID-19](#), preventing spread, and who is especially vulnerable.
- ☐ Self-screening at home, including temperature and/or symptom checks using [CDC guidelines](#).
- ☐ The importance of not coming to work if employees have symptoms of COVID-19 as described by the CDC, such as a frequent cough, fever, difficulty breathing, chills, muscle pain, headache, sore throat, recent loss of taste or smell, congestion or runny nose, nausea or vomiting, or diarrhea, or if they or someone they had contact with has been diagnosed with COVID-19.
- ☐ To return to work after a COVID-19 diagnosis only after 10 days since symptom onset and 72 hours of no fever.
- ☐ When to seek medical attention.
- ☐ The importance of hand washing.
- ☐ The importance of physical distancing, both at work and off work time.
- ☐ Proper use of face coverings, including information in the [CDPH guidance](#).

## COVID-19 EXPOSURE IN THE WORKPLACE

COVID-19 is a respiratory illness caused by the novel coronavirus SARS-CoV-2. Coronaviruses are generally thought to spread from person-to-person through the air via respiratory droplets from an infected person, or by touching surfaces contaminated by the bodily fluids of infected persons.

The symptoms of COVID-19 may include: Fever or chills, cough, shortness of breath or difficulty breathing, fatigue, muscle or body aches, headache, new loss of taste or smell, sore throat, congestion or runny nose, nausea or vomiting, and diarrhea.

The goals of the recommendations below are: 1) to protect people patronizing and working at the location, as well as the local community from COVID-19 infection, and 2) to reduce community transmission and introductions of COVID-19 into new communities.

## EMPLOYEE HEALTH

Employers are responsible for ensuring employees are healthy enough to be at the facility.

- A. Screen your employees at the beginning of each shift for possible COVID-19 symptoms.
  - 1. Ask if they are experiencing any of the symptoms listed above.
  - 2. You may also want to consider checking each employee's temperature when they arrive onsite.
  - 3. A temperature above 100.4 degrees F is considered a fever.
- B. If an employee shows any of these symptoms, exclude them from your facility and encourage them to go home and follow the Centers for Disease Control and Prevention (CDC) COVID-19 "What To Do If You Are Sick" guidelines found [here](#).
- C. Employees who are living with someone who has tested positive should also follow these guidelines.

## WHAT IF MY EMPLOYEE TESTS POSITIVE FOR COVID-19?

Upon notification that an employee has tested positive for COVID-19 or exhibits symptoms directly associated with COVID-19<sup>1</sup>, the facility owner/manager shall take the following actions:

- A. Exclude the employee from the facility and encourage the employee to adhere to the [Health Officer Order \(HOO\) Appendix B-1](#) for the control of COVID-19.
- B. Discard or disinfect any items handled by the ill employee in the last 48 hours, including but not limited to, food, utensils, office supplies, tools, and merchandise.
- C. Disinfect your work area immediately using the [CDC's disinfection guidance](#).

<sup>1</sup> Symptoms directly associated with COVID-19 include fever, cough, shortness of breath or difficulty breathing, fatigue, muscle or body aches, headache, new loss of taste or smell, sore throat, congestion or runny nose, nausea or vomiting and diarrhea.
