

HAZARDOUS WASTE MANAGEMENT TRAINING FOR SMALL QUANTITY GENERATORS

San Mateo County Environmental Health Services is providing **FREE** hazardous waste management training for businesses within San Mateo County. This webinar training is limited to businesses that generate hazardous waste as part of their operations and are classified as Small Quantity Generators (SQGs).

This webinar training program covers the basics of hazardous waste identification, proper labeling, accumulation, transportation, and disposal regulations for self-generated hazardous waste and universal waste as well as applicable recordkeeping requirements. Participants will receive a download link to course materials, training record, and a completion certificate.
