

Coastal Cleanup 2023

Site Captain Packet

Please find the enclosed documents to assist you with the event:

1. [Site Captain Checklist](#)
2. [Orientation & Safety Talk](#)
3. [Non-Emergency Contacts](#)
4. [Reporting Data](#)
5. [Bulky Item Weights](#)
6. [How to Pull Clean Swell App Data](#)

Materials Box:

Open your materials box to make sure the items you requested are inside. We did our best to fulfill your orders.

Social Media:

Follow us and share Coastal Cleanup posts on social media [@smchealth](#). Tag us with photos of your event and encourage volunteers to do the same. [#thesmccoastisclear](#)

SAN MATEO COUNTY HEALTH

Site Captain Checklist

A. Before the Event

1. ☐ Contact the necessary land managers and make arrangements for the cleanup (State, County, or City Parks Departments, public works, trash hauler, etc.).
2. ☐ Scout your site.
3. ☐ Recruit volunteers.
4. ☐ Prepare for the volunteer orientation and safety talk.
5. ☐ Distribute and collect liability waiver forms.
6. ☐ Confirm your logistics.
7. ☐ Send out event details and reminders to volunteers.
8. ☐ Download the Clean Swell app and remind volunteers to download it.
9. ☐ Optional: Plan a post-cleanup party.
10. ☐ Pick up supplies from the county coordinator.
11. ☐ Coordinate and confirm trash pickup services to recycle/dispose of litter.

B. During the Event

1. ☐ Arrive at your site one hour before the cleanup.
2. ☐ Sign-in volunteers.
3. ☐ Organize volunteers for the cleanup.
4. ☐ Give orientation and safety precaution talk (*See safety talk document enclosed in this packet*).
5. ☐ **Clean Up!**
6. ☐ Take photos - post them on social media and tag them with [@smchealth](#). [#coastalcleanup](#)
7. ☐ Collect data cards and Clean Swell app data. Volunteers are encouraged to use the Clean Swell app to go paperless.
8. ☐ Report number of volunteers and litter picked up using the **site captain reporting sheet (Orientation & Safety Talk, Section C)** by **1:30 p.m.** to the **county coordinator, Connie Tran at (650) 388-2096 or email pollutionprevention@smcgov.org**.
9. ☐ Thank your volunteers!
10. ☐ Save data cards and waiver forms to submit to your county coordinator.
11. ☐ Assess surplus supplies. If you plan to do another cleanup, you may keep them!

C. After the Event

1. ☐ Return/submit the data cards, Clean Swell app data, liability waivers, and site captain's reporting sheet to:

Connie Tran
Environmental Health Services
2000 Alameda de las Pulgas, Suite #100
San Mateo, CA 94403
2. ☐ Check out final event results posted on smchealth.org/ccd.
3. ☐ Send your volunteers a thank you with the final event results, photos, and any future cleanup opportunities.

Orientation & Safety Talk

A. Introduction and Waivers

Welcome to California Coastal Cleanup! Thank you for being part of the largest volunteer event in the State! You are the most important part of this effort. You'll be spending the next few hours cleaning up accumulated trash – litter that has washed off our city streets, trash left by beachgoers, and debris washed up from the ocean. This trash poses a threat to marine wildlife, so do your best to pick up everything you find that's man-made.

Everyone should have filled out a waiver form already. Has anyone not filled out a waiver?

(Wait for a response – If anyone has **NOT** signed a waiver form, send them back to the check-in table/area.)

On our check-in table you'll find resources about free household hazardous waste disposal, reusable 1 lb. propane cylinders, and many more community resources that will help you prevent pollution in your everyday lives (*If applicable and you requested these items in your materials box*). After the event, please grab a thank you gift found at our table (limited supply).

B. Safety Requirements

DO:

1. **DO** wear gloves, closed toe shoes, a hat, and sunblock.
2. **DO** bring water and stay hydrated.
3. **DO** stay in teams of at least two.
4. **DO** supervise children at all times.
5. **DO** be cautious and aware of sensitive habitats to protect our environment.
6. **DO** only pick up human-created matter (plastics, metal, glass, Styrofoam, etc.). Natural debris (algae, kelp, driftwood, etc.) is part of the natural system we are working to restore and should be left alone.

7. **DO** pick up small pieces of trash like cigarette butts and small plastic pieces. These items will continue to break down into smaller pieces and will end up traveling down storm drains where they will enter our bay and ocean, harming wildlife.

DON'T:

8. **DON'T** participate in the event if you are experiencing any transmissible illness symptoms or are sick.
9. **DON'T** attempt to access an area that appears unsafe, steep, etc.
10. **DON'T** touch or pick up dead animals or attempt to move injured animals. Make your site captain(s) aware of the animals and where they are.
11. **DON'T** pick up syringes, needles, or any sharp objects. Mark the area and notify the site captain(s) or local official of their location.
12. **DON'T** pick up items near a homeless encampment and/or site. If you encounter a homeless site, please notify the site captain and leave the trash there as it may be their belongings.
13. **DON'T** go near any hazardous materials (large drums, etc.). Inform your site captain(s) of the material's location so that the right people can be called for help.
14. **DON'T** lift anything too heavy. When in doubt, don't try!
15. **DON'T** disturb plants or animals.
16. **DON'T** overexert yourself and risk sunburn, heat exhaustion, or dehydration. Just come back early.

C. Data Collection

The information volunteers collect on the Clean Swell app and/or the hardcopy data cards will be used to help estimate trash levels of popular items found in the County.

Clean Swell App

1. Volunteers are encouraged to use the Clean Swell app to go paperless.
2. Download the app for free on any mobile device.
3. Create a profile with an email and password.
4. Collect and record – confirm the number of people on your team and tap the trash icons to record what items you pick up.
5. Review and submit – confirm the details of your cleanup, add a group name, and submit. The data immediately uploads to coastalcleanupdata.org.

Data Cards

- Although there is no space to list every single piece or type of trash we expect to see during the cleanup, volunteers should still pick up every piece of debris they find.
- When filling out cards, count every piece and be specific (as shown in the example on the card), and record the total in the box.
- **Do not write the words “lots” or “many.”** Only actual numbers of items can be used. If you get tired of counting, estimates with a real number are good.

Send volunteers to the supply table/area to collect their supplies and start the cleanup!

Non-emergency Contacts

City/Town	Police	Fire	Public Works (Sharps/Large Bulky Items)

Wildlife	Contact
Distressed marine mammals (and turtles)	The Marine Mammal Center 415-289-SEAL (7325)
Distressed wild birds	Peninsula Humane Society & SPCA 650-340-7022 x314
Birds with oil on them or dead	California Department of Fish and Game at 1-888-DFG-CALTIP (334-2258)
Dead seabirds	Dead seabirds should be left in place

Hazardous Waste	Contact
Oil and chemical spills	CA Office of Emergency Response 800-OILS911 (645-7911)
Other hazardous waste	Call your local fire department

For assistance on reporting an issue **not** listed above, call or text Connie Tran at (650) 388-2096.

Reporting Sheet

Please submit post-cleanup hardcopy data card totals by no later than **1:30 p.m.** on **Saturday, September 23** to ensure your site's data is included in the countywide report to the California Coastal Commission.

Ways to Submit Data

- **Text or Call Connie Tran** at (650) 388-2096.
- **Email** pollutionprevention@smcgov.org.

Reporting Sheet

1. Use **hand scales** to weigh trash collected.
2. **Complete this worksheet** before reporting your data.
3. **Report your data by 1:30 p.m.** via text or call to Connie Tran **on the day of the event**.

- A. Site location:** _____
- B. Total pounds of trash AND recyclables (use your scale) *:** _____
- a. *You may weigh a typical random sample and multiply the average weight per bag to get the total pounds or weigh all the bags with the hand scale. Please indicate if you **measured** or **estimated** (circle one). Please do not report your trash by volume, do your best to estimate the weight.
- C. Total number of volunteers:** _____
- D. Total mileage/area cleaned:** _____
- E. Number of volunteers that brought their own bag or bucket (*this automatically enters you to win 2 tickets to the Monterey Bay Aquarium!*):** _____
- F. Most unusual Item(s):**
- a. _____
- b. _____
- c. _____
- G. Did your site use** ☐ Data cards only ☐ Clean Swell app only ☐ Both
- H. What group name did volunteers use if using the Clean Swell app?** _____
- I. Does your total weight listed above include the trash/recyclables collected from volunteers who used the Clean Swell app?** ☐ Yes ☐ No, only volunteers who used data cards. The Clean Swell app data will need to be pulled and added to the weight I listed above.

Bulky Items

If applicable, fill out the section below and include the pounds in the total pounds reported above. See the next page for example weights.

E.g. Bicycles, shopping carts

Measured or **estimated** pounds (circle which you used) = _____

If you have any questions or need assistance, please contact Connie Tran.

IMPORTANT REMINDER: Please return the above reporting sheet, liability waivers, and data cards to the Pollution Prevention Program at 2000 Alameda de las Pulgas, Suite #100, San Mateo, CA 94403 by Tuesday, October 10th. You may drop it off during our office hours Monday-Friday (except holidays), 8 a.m.-5 p.m. or mail it.

Bulky Items

Common Bulky Item Weights

Appliances	Weight in lbs. (Source Linked)
Refrigerator	250 lbs.
Washer	170 lbs.
Dryer	124 lbs.
Dish Washer	165 lbs.
Automotive/Transportation	
Tire (passenger, light truck)	22.5 lbs.
Commercial Tire	120 lbs.
Bike (Adult)	25 lbs.
Retail	
Shopping Cart (Metal)	65 lbs.
Shopping Cart (Plastic)	55 lbs.

Clean Swell Data

How to Pull Clean Swell App Data

Please email pollutionprevention@smcgov.org if you have any questions about how to pull Clean Swell app data from coastalcleanupdata.org. For a guide on [How to Pull and Filter Clean Swell App Data](#), please visit smchealth.org/ccd.
