## I. Executive Summary

MED-Project LLC (“MED-Project”) operates a Product Stewardship Plan for Unwanted Medicine from Households (“Plan”) in San Mateo County (the “County”) under the County of San Mateo Safe Medicine Disposal Ordinance, San Mateo County Ordinance Code Sections 4.116.010 - 4.116.190 (“Ordinance”). MED-Project’s Plan, dated April 14, 2023; Revised March 21, 2024, was approved by the San Mateo Environmental Health Services (the “Department”), on October 1, 2024 (the “Approved Plan”). This 2024 San Mateo County Annual Report (“Report”) describes MED-Project’s activities between January 1, 2024, and December 31, 2024 (“Reporting Period”). Between January 1, 2024, and October 1, 2024, MED-Project operated under the plan dated April 14, 2023; Revised, September 18, 2023, conditionally approved by the Department on December 21, 2023 (“Prior Conditionally Approved Plan”). Between October 2, 2024, and December 31, 2024, MED-Project operated under the Approved Plan, dated April 14, 2023; Revised March 21, 2024, and approved by the Department on October 1, 2024. Information included in this Annual Report occurred during the Reporting Period unless otherwise stated. All capitalized terminology not defined in this summary is derived from the Approved Plan.

MED-Project has been in operation in the County since 2017 and has served Residents by collecting over 305,000 pounds of Unwanted Medicine. MED-Project’s outreach and education efforts have thus far resulted in over 47 million impressions to County Residents, stemming from its comprehensive education and outreach program.

### A. Notifications in the Reporting Period

MED-Project submitted change requests and notices. The change requests and notices included:

- MED-Project submitted four quarterly producer list reports.
- MED-Project submitted a non-substantive change notification on January 9, 2024, notifying the Department of the activation of a Kiosk Drop-Off Site.
- MED-Project submitted a notification on April 12, 2024, notifying the Department of a change to the liner supplier.

### B. Reporting Period Operations Overview

Priority was given to operating Kiosk Drop-Off Sites throughout the County and performing public outreach to eligible pharmacies, hospitals, clinics with on-site

pharmacies, and Law Enforcement Agencies (“LEAs”). MED-Project’s Program collected and disposed of Unwanted Medicine from 50 Kiosk Drop-Off Sites and distributed Mail-Back Packages at 10 Mail-Back Distribution Locations.

Kiosks were installed in pharmacies that meet all local, state, and federal requirements and that executed agreements with MED-Project. In addition, promotional materials, including signage and/or brochures, were distributed to select existing Kiosk Drop-Off Sites.

MED-Project provided disposal instructions to select Kiosk Drop-Off Sites and Mail-Back Services to Residents and continues to communicate with Kiosk Drop-Off Site Hosts to distribute outreach materials upon request, review procedures as needed and improve overall Program design.

As outlined in the Approved Plans the ultimate goal of the Program is to provide Residents with convenient, safe, and accessible methods to dispose of Unwanted Medicine.

The following Sections of the Report respond to specific reporting requirements in Ordinance § 4.116.090. Each section of the Report restates the corresponding Ordinance requirements and provides the required information. All figures are rounded to the nearest tenth place.

See Appendix G; Safety and Security Report.

## VII. Public Education, Outreach, and Evaluation Activities

**Ordinance Sec. 4.116.090(a)(9):** *“A description of the public education, outreach and evaluation activities implemented during the reporting period.”*

### A. Public Education Activities

MED-Project provided disposal instructions for Kiosk Drop-Off Sites and Mail-Back Services offered through the Prior Conditionally Approved Plan and the Approved Plan. In addition, MED-Project maintained a website and toll-free telephone number to provide information pertaining to MED-Project disposal options and outreach materials. The MED-Project Website, toll-free telephone number, and outreach materials, such as posters and brochures, were available in the Required Languages, including English, Spanish, Chinese, and Tagalog. For screenshots of MED-Project Website pages, see Appendix H.

During the Reporting Period, MED-Project coordinated to develop a single system of promotion website and a single system of promotion toll-free telephone number to

distribute calls to all approved program operators in accordance with Ordinance § 4.116.060.

The single system of promotion website went live on May 2, 2024, and provides an interactive map with locations of Kiosk Drop-Off Sites and Mail-Back Distribution Locations in addition to other information, including how to order Mail-Back Services. The website is available in the Required Languages. For screenshots of the single system of promotion website, see Appendix H.

The single system of promotion toll-free telephone number went live on May 1, 2024 and is available 7 days a week, 24 hours a day. It provides assistance with locating Kiosk Drop-Off Sites and Mail-Back Distribution Locations and ordering Mail-Back Services. The toll-free telephone number is available in the Required Languages. To increase access for Residents, the single system of promotion phone number offers dialing options for TTY and 711 services.

## **B. Outreach Activities**

To promote the Program, MED-Project conducted campaigns using digital display, connected TV, and streaming audio channels; provided information through the MED-Project Website; posted information on social media sites; and sent broadcast emails. Additionally, MED-Project distributed materials, including brochures and posters, to select Kiosk Drop-Off Sites. MED-Project also distributed materials to over 450 licensed pharmacies, healthcare facilities, and veterinary facilities. Both independent and individual chain pharmacy sites received these materials. The accompanying communication included information on how to obtain additional educational materials and a request for the site to place the materials in high-visibility/high-traffic areas. Educational materials use plain language and explanatory images to promote consumer education and collection options to Residents with limited English proficiency. The frequency and reach percentage for each campaign is provided in the Media Outreach Summary.

See Appendix I: Promotional Materials.

See Appendix J: Social Media and Email Promotion Activity.

See Appendix K: Media Outreach Summary.

## **C. Evaluation Activities**

MED-Project coordinated with the other approved program operator to conduct a biennial survey of Residents, pharmacists, veterinarians, and health care professionals who interact with members of the community in accordance with Ordinance § 4.116.060(a)(4). The provider and Resident survey results were posted to the MED-Project Website on July 3, 2024. See Section IX.B for more information on the biennial survey.

## D. Collector Outreach

MED-Project notified nonparticipating and new Retail Pharmacies in the County of the opportunity to participate in the Program as a Kiosk Drop-Off Site in accordance with Ordinance § 4.116.030(e)(2).

## VIII. Packaging Recycling

**Ordinance Sec. 4.116.090(a)(10):** *“A description of how collected packaging was recycled to the extent feasible, including the recycling facility or facilities used.”*

As described in the Approved Plans, while drug packaging is expected to constitute a significant amount of the waste incinerated under the Program, MED-Project has concluded that separation of inner and/or outer packaging from Unwanted Medicine and/or recycling of packaging would raise three significant concerns:

1. Separating and recycling drug packaging could result in the disclosure of confidential patient information appearing on prescription drug packaging;
2. Separating and recycling drug packaging could increase the potential for releases and leakage of Unwanted Medicine; and
3. Separating and recycling drug packaging could increase diversion risk by adding additional steps to the collection process and because drug packaging is often used in drug counterfeiting, the drug packaging could be a diversion target itself.

For these reasons, the Program does not provide for the separation and recycling of packaging from Unwanted Medicine.

MED-Project education and outreach materials instruct Residents to return Unwanted Medicine at a Kiosk Drop-Off Site, via Mail-Back Services, or at a Take-Back Event, in its original container or a sealed bag. These materials encourage Residents who transfer their Unwanted Medicine into a sealed bag to recycle all remaining packaging.

## IX. Summary of Plan Goals

**Ordinance Sec. 4.116.090(a)(11):** *“A summary of the Stewardship Plan’s goals, the degree of success in meeting those goals in the past year, and, if any goals have not been met, what effort will be made to achieve the goals in the next year.”*

As discussed in the Executive Summary of this Annual Report, MED-Project operated under the Prior Conditionally Approved Plan, and the Approved Plan. As such, MED-Project operated under the short-term goals described in Section VI of the Prior

Conditionally Approved Plan and the short-term goals described in Section VI of the Approved Plan.

## A. Collection Goals

MED-Project operated under the Prior Conditionally Approved Plan Between January 1, 2024, and October 1, 2024, and the Approved Plan between October 2, 2024 and December 31, 2024. As discussed in Section VI of both the Prior Conditionally Approved Plan and the Approved Plan, MED-Project operated against the following short-term collection goal:

- MED-Project’s goal is to maintain the Service Convenience Goals through established Kiosk Drop-Off Sites with an estimated average collection of 100 pounds per Kiosk Drop-Off Site annually.

MED-Project operated 10 Mail-Back Distribution Locations. MED-Project met its short-term collection goal of meeting the Service Convenience Goal through established Kiosk Drop-Off Sites, and operation of 10 Mail-Back Distribution Locations in sparsely populated areas of the County as requested by the Department.

MED-Project met the Service Convenience Goal in accordance with Ordinance §4.116.050(b)(1) established Kiosk Drop-Off Sites and Mail-Back Distribution Locations. Figure 1 shows a graphical representation of how the Service Convenience Goal was met with Kiosk Drop-Off Sites and Mail-Back Distribution Locations. MED-Project operated 50 Kiosk Drop-Off Sites and collected 46,158.3 pounds of Unwanted Medicine from Kiosks for an average of 923 pounds per Kiosk Drop-Off Site.

See Appendix L: Kiosk Drop-Off Site and Mail-Back Distribution Location Reporting Period Results.

## B. Education and Public Outreach Goals

As outlined in Section VI of both the Prior Conditionally Approved Plan and the Approved Plan, MED-Project operated against the following education and public outreach short-term goal:

- Starting the first full calendar year after approval of the Plan, reach 25% of the 18 years of age and over population through media outreach tactics by the end of year (1) one (i.e., end of 2024).

MED-Project conducted a 4-week media campaign using a comprehensive strategy to raise public awareness and educate Residents about the Program. The media campaign included digital display, connected TV, and streaming audio channels, which generated a reach of 32%. See Appendix K; Media Outreach Summary. Public Service Announcements, in both video and audio formats, promoted the proper and safe

disposal of Unwanted Medicine. Social media platforms were also utilized to complement and expand the Program's outreach efforts.

In accordance with Ordinance § 4.116.060(a)(4), MED-Project coordinated with the other approved program operator to conduct a biennial survey of Residents, pharmacists, veterinarians, and health care professionals who interact with members of the community. The Resident survey was conducted in the Required Languages, including English, Spanish, Mandarin, Cantonese, and Tagalog.

The Provider survey showed that 99% of providers are aware of pharmacy drop boxes, 97% are aware of mail-back programs, 95% are aware of local take-back events, and 95% are aware of police station drop boxes as a way to dispose of expired or unwanted household medication. Further, 96% of Providers agree that takeback programs make it easy to dispose of unwanted medications, and 79% agree they are convenient.

The Resident survey showed that 63% of Residents are aware of pharmacy drop boxes, 43% are aware of police station drop boxes, 38% are aware of local take-back events, and 26% are aware of mail-back programs as a way to dispose of expired or unwanted household medication.

## **X. Program Costs**

***Ordinance Sec. 4.116.090(a)(12): "The total expenditures of the Stewardship Plan during the reporting period."***

The total Program cost for the Reporting Period was \$531,833.67.

## Safety and Security Report

### **Event Reported Date:**

January 15, 2024 and September 3, 2024

### **Location:**

Boxes and Liners originating from County Kiosk Drop-Off Sites

### **Event Summary:**

MED-Project was notified by its Vendor that an Unwanted Medicine box and liner that originated from a County Kiosk Drop-Off Site had been declared by the Carrier to be lost in transit. Additionally, a second Unwanted Medicine liner which originated from a County Kiosk Drop-Off Site became separated from the Unwanted Medicine box and was declared lost in transit. MED-Project understands that there have been rare exceptions in which the Carrier cannot deliver a package to its destination or return it to the shipper for reasons including, but not limited to, the loss of shipping information, such as a damaged shipping label. The Vendor has reported that the Carrier has policies and procedures for managing such packages, including destruction at a permitted medical waste incinerator.

### **Corrective Action Taken:**

MED-Project notified the County on January 15, 2024, and September 3, 2024 and requested that the Vendor provide a detailed report of its investigation and findings including any information on the whereabouts of the Unwanted Medicine boxes and liners. In addition MED-Project requested from the Vendor: (1) any other outcomes from investigations into the events; (2) any reports the Vendor makes regarding these events to law enforcement or government agencies; (3) a description of any law enforcement or government agency involvement with these events; (4) an explanation of any legal proceedings involving these events, and (5) any changes in policy or procedures that the Vendor has or is planning to make as a result of these events. MED-Project also notified the Kiosk Drop-Off Site Hosts of the events, including information on potential reporting obligations under the Drug Enforcement Administration and California Board of Pharmacy regulations. MED-Project continues to monitor Carrier shipping discrepancies with the Vendor to determine if loss rates are within expected shipping industry norms.

# ITAPON

NANG LIGTAS ANG MGA NAPASO NA O HINDI NA GINAGAMIT NA GAMOT

*May ilang paraan para itapon ang mga napaso na o hindi na ginagamit na gamot.*

Para sa higit pang impormasyon tungkol sa programang MED-Project, pumunta sa [www.med-project.org](http://www.med-project.org) o tumawag sa 1 (844) MED-PROJECT o 1-844-633-7765 (TTY: 711).

Ano ang dapat mong gawin sa mga napaso na o hindi na ginagamit na gamot?

Tumutulong ang mga gamot sa paglunas sa mga sakit, pamamahala ng mga pabalik-balik na kondisyon, at pagpapabuti ng kalusugan at kapakanan para sa milyon-milyong Amerikano. Importanteng inumin ng mga pasyente ang kanilang mga gamot ayon sa pagkakareseta ng kanilang tagapaglaan ng pangangalaga sa kalusugan, at ayon sa pagkakasaad sa etiketa o packaging. Mahalaga rin na tiyaking itago ang mga gamot nang ligtas para maiwasan ang di-sadyang pagkakainom o maling paggamit ng ibang tao, lalo na ng mga bata.

Kung mayroon kang mga napaso na o hindi na ginagamit na gamot, madali lang ang wastong pagtatapon sa mga ito. Para maprotektahan ang privacy mo, pinapaalala sa mga pasyente na alisin ang lahat ng personal na mapagkikilalan na impormasyon sa mga etiketa o packaging ng gamot bago itapon ang mga hindi na ginagamit na gamot.
