

## ADMINISTRATIVE BULLETIN

**DATE:** January 18, 2024

**TO:** American Medical Response, San Mateo County  
South San Francisco Fire Department  
San Mateo County Prehospital Emergency Medical Services Group  
San Mateo County EMS System Receiving Hospitals  
San Mateo County Public Safety Communications

**FROM:** Travis Kusman, MPH, Paramedic, EMS Director & MHOAC   
Dr. Gregory H. Gilbert, EMS Medical Director 

**SUBJECT:** Seton Medical Center STEMI Diversion (24-BUL-01)

---

Seton Medical Center, Daly City will be placed on STEMI diversion beginning 12:00 p.m. Friday, January 19, 2024. Water leaks and corresponding damage have materialized within its interventional cardiac catheterization suites. Given impending weather events expected over the weekend, these specific patient care areas will not be available for service delivery. Seton Medical Center will remain on STEMI diversion until these issues are fully mitigated, which is expected to occur during the upcoming week.

During this time, all STEMI patients that would routinely be destined to Seton Medical Center should be diverted to Mills-Peninsula Medical Center. Walk-in STEMI patients at Seton Medical Center will be transferred via established emergency interfacility transfer protocols.

The San Mateo County EMS Agency remains in close communication with Seton Medical Center administration and will provide updates as they become available.
