No Medical Complaint

For patients without any medical, psychiatric or traumatic complaint and no signs of illness on assessment. Usually reserved for non-transports

Pearls
- Patients who are denying more severe symptoms may initially present for a “routine check.” Confirm with the patient at least twice that they have no medical complaint.
- All persons who request medical evaluation or treatment are considered patients and shall have a EHR completed.
- Should a patient refuse evaluation or decline further evaluation once begun, document as much as you can. Even patients who refuse vital signs can be observed and respirations measured. The EHR narrative in these cases is key and must accurately and thoroughly describe the patient encounter.
