Who is speaking?

Officer Luna was introduced. Who is speaking now?

Chris Rasmussen

01:06:14

CR

its on the agenda

Jeanine Luna

Jean Perry

01:08:24

JP

Your are several minutes late to the draw. According to agenda it was Ryan Monaghan, who was not introduced. Who also launched into questions before the Commission or public had an opportunity.

Regarding privacy, "Diagnosis" is "protected health information". Is data being maintained to HIPAA standards?

Ammi Rostin

01:18:23

AR

Is it not better to describe symptoms instead of diagnosis? Two people with the same diagnosis can behave very differently.

William E

01:20:15

WE

"Voluntary" under HIPAA would be if info was provided by the person themselves only, not a third party.

Pat Willard, Peninsula Anti-Racism Coalition

01:21:13

PW

It seems that the Sheriff would be the only one. City of San Mateo should give their up.

William E

01:22:11

WE

Sheriff's form does not ask for "diagnosis".

It does seems like this may have expanded beyond its original scope.

Pat Willard, Peninsula Anti-Racism Coalition

01:30:09

PW

Yes, William.
