County Care Coordinators shall evaluate beneficiaries using ASAM and will authorize individuals for residential withdrawal management or residential treatment, or refer the beneficiary to a non-residential network provider. Time-limited case management services shall be provided by the CCCT to ensure smooth and timely admissions to care including referrals to other needed services such as mental health, housing, employment, psychiatric or medical services. If ongoing care coordination of the beneficiary is required outside of the direct treatment provider, it shall be provided by the CCCT.

c) In the event that an evaluation appointment cannot be made within 24 hours, such as on weekends or holidays, the ACC after-hours provider shall complete an additional residential evaluation with the beneficiary, and when indicated, shall provide the beneficiary with a preliminary 7-day authorization for residential treatment. Once admitted to care, the network provider must request a re-authorization (see below) for treatment for continued care at a residential level.

3) Path 2: Residential Detox/Withdrawal Management Authorizations

a) Beneficiaries authorized and receiving 3.2-WM services from a stand-alone provider shall be assessed for further care needs and the 3.2-WM provider may provide an initial authorization for beneficiaries to a residential treatment facility, when medically necessary. The beneficiary shall be referred to a network provider offering the needed ASAM level of care and case management provided to ensure smooth and timely admission to the next appropriate level of care. 4) Path 3: Residential Provider Initiated Authorization

a) Prospective beneficiaries often are referred directly to residential treatment providers by family members, friends, clergy, social service and health providers. In order to ensure timely authorizations and admissions, the Contractor shall ensure that the provider conducts an initial ASAM screening. If the results from the screening indicate the likely need for residential treatment the provider shall enroll the beneficiary and within 24 hours inform the BHRS Care Coordination Team who will provide an ASAM evaluation to validate and authorize services. If the beneficiary is not eligible for that level of care the CCCT staff will facilitate a “warm hand off” to the provider that best matches the beneficiary’s needs. If housing is an issue the CCCT staff will work to ensure the beneficiary is not discharged into homelessness working with Shelter Care providers, family and friends or other temporary housing options.

5) Path 4: Outpatient Provider Initiated Authorization
a) Outpatient provider initiated residential authorization requests shall be made to the ACC including those made on weekends or holidays or after-hours for evaluation and authorization. When indicated, the beneficiary shall be granted a preliminary 7-day authorization for residential treatment. Once admitted to care, the residential provider shall request a re-authorization for treatment for continued care at a residential level.

6) Residential Treatment Re-Authorizations

   a) Contractor shall ensure that residential providers request a re-authorization, based on the results of the ASAM assessments, from the BHRS via the Avatar (electronic health record) system, at least 7 calendar days from the initial authorization expiration date. The CCCT shall communicate with the treatment provider to reduce risk of duplicated case management efforts and shall lead complex care coordination when the beneficiary needs services from multiple county systems.
6) The Contractor shall ensure that all other beneficiaries receive case management services exclusively from the provider agency where the beneficiary is admitted and receiving treatment services.

Should a need be substantiated an RFP would be released for ASAM L 2-WM.

4) The Contractor shall work with Sutter Health’s Mills Peninsula Hospital and other area service providers to assist beneficiaries to access ASAM Levels 3.7-WM (Medically- Monitored Inpatient Withdrawal Management) and 4.0-WM (Medically-Managed Inpatient Withdrawal Management) when medically necessary. The Contractor shall coordinate with these providers to smoothly transition and support beneficiaries to less intensive levels of care available within the DMC-ODS.

If so, State may amend the amount of funding provided for in this Intergovernmental Agreement based on the actual congressional appropriation.

E. Subcontractor Funding Limitations

Pursuant to HSC Section 11818 (b)(2)(A), Contractor shall reimburse its Subcontractors that receive a combination of Drug Medi-Cal funding and other federal or county realignment funding for the same service element and location based on the Subcontractor’s actual costs in accordance with Medicaid reimbursement requirements as specified in Title XIX or Title XXI of the Social Security Act; Title 22, and the State’s Medicaid Plan. Upon receipt of adequate documentation supporting a disallowed or questionable expense, reimbursement may resume for the amount substantiated and deemed allowable.

4. Costs and/or expenses deemed unallowable are subject to recovery by DHCS.

2. Prior to making any reductions pursuant to this subdivision, the Director shall notify all counties that county underspending will reduce the federal Substance Abuse Prevention and Treatment Block Grant maintenance of effort (MOE). Reimbursement to NTP’s shall be limited to the lower of either the USDR rate, pursuant to W&IC Section 14021.51(h), or the provider’s usual and customary charge to the general public for the same or similar service. However, reimbursement paid by a county to an NTP provider for services provided to any person subject to Penal Code Sections 1210.1 or 3063.1 and for which the individual client is not liable to pay, does not constitute a usual or customary charge to the general public. (W&IC Section 14021.51(h)(2)(A)).
K. State shall reimburse the Contractor the State General Funds and/or federal Medicaid amount of the approved DMC claims and documents submitted in accordance with Exhibit A, Attachment I, Section 23.2.

L. State will adjust subsequent reimbursements to the Contractor to actual allowable costs. Actual allowable costs are defined in the Medicare Provider Reimbursement Manual (CMS-Pub.15), which can be obtained from the Centers for Medicare & Medicaid Services, Baltimore, Maryland, or www.cms.hhs.gov.

M. Contractors and Subcontractors must accept, as payment in full, the amounts paid by the State in accordance with Title 22, CCR, Section 51516.1, plus any cost sharing charges (deductible, coinsurance, or copayment) required to be paid by the client. However, Contractors and Subcontractors may not deny services to any client eligible for DMC services on account of the client's inability to pay or location of eligibility. Contractors and Subcontractors may not demand any additional payment from the State, client, or other third party payers.

A. In addition to the requirements identified below, the Contractor and its Subcontracts are required to meet the audit requirements as delineated in Exhibit C, General Terms and Conditions, and Exhibit D(F), Special Terms and Conditions, of this Intergovernmental Agreement.

B. All expenditures of county realignment funds, state and federal funds furnished to the Contractor and its Subcontractors pursuant to this Intergovernmental Agreement are subject to audit by the State. Such audits shall consider and build upon external independent audits performed pursuant to audit requirements of the Office of Management and Budget (OMB) Circular A-133 (Revised December 2013) and/or any independent Contractor audits or reviews. Objectives of such audits may include, but not limited to, the following:

6. To determine the facts in relation to analysis of data, complaints, or allegations, which may be indicative of fraud, abuse, willful misrepresentation, or failure to achieve the Intergovernmental Agreement objectives of Exhibit C and D(F).

C. Unannounced visits may be made at the discretion of the State.

D. The refusal of the Contractor or its Subcontractors to permit access to and inspection of electronic or print books and records, physical facilities, and/or refusal to permit interviews with employees, as described in this part constitutes an express and immediate material
breach of this Intergovernmental Agreement and will be sufficient basis to terminate the Intergovernmental Agreement for cause or default.

E. Reports of audits conducted by the State shall reflect all findings, recommendations, adjustments and corrective action as a result of it's finding in any areas.

**Section 2. Non-Drug Medi-Cal Financial Audits**

A. Pursuant to OMB Circular A-133 § 400(d)(3), Contractor shall monitor the activities of all of its Subcontractors to ensure that:

1. Subcontractors are complying with program requirements and achieving performance goals

2. Subcontractors are complying with fiscal requirements, such as having appropriate fiscal controls in place, and are using awards for authorized purposes.

B. Contractor can use a variety of monitoring mechanism, including limited scope audits, on-site visits, progress reports, financial reports, and review of documentation support requests for reimbursement, to meet the Contractor's monitoring objectives. The Contractor may charge federal awards for the cost of these monitoring procedures as outlined in OMB Circular A-133.

C. The Contractor shall submit to the State a copy of the procedures and any other monitoring mechanism used to monitor non-profit Subcontracts at the time of the County’s annual site visit or within 60 days thereafter. Contractor shall state the frequency that non-profit Subcontracts are monitored.

D. Limited scope audits, as defined in the OMB Circular A-133, only include agreed-upon engagements that are (1) conducted in accordance with either the American Institute of Certified Public Accountants generally accepted auditing standards or attestation standards; (2) paid for and arranged by pass-through entities (counties); and (3) address one or more of the following types of compliance requirements: (i) activities allowed or unallowed; (ii) allowable costs/cost principals; (iii) eligibility; (9v) matching, level of effort and earmarking; and (v) reporting.

E. On-site visits focus on compliance and controls over compliance areas. The reviewer must make site visits to the subcontractor locations(s), and can use a variety of monitoring mechanism to document compliance requirements. The finding and the corrective action will require follow-up by the Contractor.

F. Contractor shall be responsible for any disallowance taken by the Federal Government, the State, or the California State Auditor, as a result of any audit exception that is related to the Contractor's responsibilities herein. Contractor shall not use funds administered by the State to repay one federal funding source with funds provided by another federal funding source, to repay federal funds with state funds, or to repay state funds with federal funds. State shall invoice Contractor 60 days after issuing the final audit report or upon resolution of an audit appeal. Contractor agrees to develop and implement any corrective action plans in a manner acceptable to the State in order to comply with recommendations.
contained in any audit report. Such corrective action plans shall include time-specific objectives to allow for measurement of progress and are subject to verification by the state within one year from the date of the plan.

If differences cannot be resolved between the State and Contractor regarding the terms of the financial audit settlements for funds expended under Exhibit A, Attachment I, Section 27, Contractor may request an appeal in accordance with the appeal process described in Document 1J(a), “Non-DMC Audit Appeal Process,” incorporated by this reference. When a financial audit is conducted by the Federal Government, the State, or the California State Auditor directly with a Subcontractor of the Contractor, and if the Subcontractor disagrees with audit disallowances related to its programs, claims or services, Contractor shall, at the Subcontractor’s request, request an appeal to the State in accordance with Document 1J(a). Contractor shall include a provision in its subcontracts regarding the process by which its Subcontractors may file an appeal via the Contractors.

G. Contractors that conduct financial audits of Subcontractors, other than a Subcontractor whose funding consists entirely of non-Department funds, shall develop a process to resolve disputed financial findings and notify Subcontractors of their appeal rights pursuant to that process. This section shall not apply to those grievances or compliances arising from the financial findings of an audit or examination made by or on behalf of the State.

H. Pursuant to OMB Circular A-133, State may impose sanctions against the Contractor for not submitting single or program-specific audit reports, or failure to comply with all other audit requirements. The sanctions shall include:

1. To review reported costs for validity, appropriate allocation methodology, and compliance with Medicaid laws and regulations;
2. To ensure that only the cost of allowable DMC activities are included in reported costs;
3. To determine the provider’s usual and customary charge to the general public in accordance with CMS (The Medicare Provider Reimbursement Manual) (CMS-Pub.15), which can be obtained from the Centers for Medicare & Medicaid Services, Baltimore, Maryland, or www.cms.hhs.gov, for comparison to the DMC cost per unit;
4. To review documentation of units of service and determine the final number of approved units of service;

5. To determine the amount of clients’ third-party revenue and Medi-Cal share of cost to offset allowable DMC reimbursement; and,

6. To compute final settlement based on the lower of actual allowable cost, the usual and customary charge, or the maximum allowance, in accordance with Title 22, Section 51516.1.

B. In addition to the audit requirements set forth in Exhibit D(F), State may conduct financial audits of NTP programs. For NTP services, the audits will address items A(3) through A(5) above, except that the comparison of the provider's usual and customary charge in A(3) will be to the DMC USDR rate in lieu of DMC cost per unit. In addition, these audits will include, but not be limited to:

1. For those NTP providers required to submit a cost report pursuant to W&IC Section 14124.24, a review of cost allocation methodology between NTP and other service modalities, and between DMC and other funding sources;

2. A review of actual costs incurred for comparison to services claimed;

3. A review of counseling claims to ensure that the appropriate group or individual counseling rate has been used and that counseling sessions have been billed appropriately;

4. A review of the number of clients in group sessions to ensure that sessions include no less than two and no more than twelve clients at the same time, with at least one Medi-Cal client in attendance;

5. Computation of final settlement based on the lower of USDR rate or the provider's usual and customary charge to the general public; and,

6. A review of supporting service, time, financial, and patient records to verify the validity of counseling claims.

C. Contractor shall be responsible for any disallowances taken by the Federal Government, the State, or the Bureau of State Audits as a result of any audit exception that is related to its responsibilities. Contractor shall not use funds administered by the State to repay one federal funding source with funds provided by another federal funding source, or to repay federal funds with state funds, or to repay state funds with federal funds.

D. Contractor agrees to promptly develop and implement any corrective action plans in a manner acceptable to the State in order to comply with recommendations contained in any audit report. Such corrective action plans shall include time-specific objectives to allow for measurement of progress and are subject to verification by the State within six months from the date of the plan.
E. Contractor, in coordination with the State, must provide follow-up on all significant findings in the audit report, including findings relating to a Subcontractor, and submit the results to the State.

If differences cannot be resolved between the State and the Contractor regarding the terms of the final financial audit settlements for funds expended under Exhibit B, Contractor may request an appeal in accordance with the appeal process described in the "DMC Audit Appeal Process." Document 1J(b), incorporated by this reference. When a financial audit is conducted by the Federal Government, the State, or the Bureau of State Audits directly with a Subcontractor of the Contractor, and if the Subcontractor disagrees with audit disallowances related to its programs, claims or services, Contractor shall, at the Subcontractor’s request, request an appeal to the State in accordance with Document 1J(b). Contractor shall include a provision in its subcontracts regarding the process by which a Subcontractor may file an audit appeal via the Contractor.

When an audit by the Federal Government, the State, or the California State Auditor has been started before the expiration of the three-year period, the records shall be retained until completion of the audit and final resolution of all issues that arise in the audit. Final settlement shall be made at the end of the audit and appeal process. If an audit has not been completed within three years, the interim settlement shall be considered as the final settlement.

4. Financial records shall be kept so that they clearly reflect the source of funding for each type of service for which reimbursement is claimed. These documents include, but are not limited to, all ledgers, books, vouchers, time sheets, payrolls, appointment schedules, client data cards, and schedules for allocating costs.
