Jim Beaumont (Health Center) on 3/13/2017 3:18 PM EST: Categorization error from previous years. Have now been identified as being under Medicaid.

Edit 01235: Inter-year Change in Patients - There is a decrease in the number of Migrant Health patients reported on Line 16 (1,497) from prior year (1,947) . Please correct or explain.

Related Tables: Table 4(UR)

Elli Lo (Health Center) on 2/15/2017 4:58 PM EST: This year's number is still more 450 greater than the number of MH patients in 2012. The largest segment of the reduction was in the migrant count as there was a 40% reduction in this group. This would indicate the possibility of a significant drop in the utilization of farmworkers likely due to the ongoing drought conditions in 2016. In addition, we speculate fewer farmworkers seeking services from a public entity due to the uncertain political climate and many fear deportation.

Table 5-Staffing and Utilization

Edit 04692: Inter-year Patients questioned - On Migrant Health Center - A large change in Medical patients from the prior year is reported on Line 15 Column C. (PY = (1,729) , CY = (1,243)). Please correct or explain.

Related Tables: Table 5(MHC)

Jim Beaumont (Health Center) on 2/15/2017 4:21 PM EST: There was an overall decrease in the number of MH patients seen during the year. We have identified two causes for the decrease. 1.) Drought conditions in California has reduced the overall crop output. This has resulted in a continual decrease over the past 5 years in the number of individuals employed in farming, including MSFW. 2.) The public discourse over the past year on immigration makes it more difficult to get undocumented individuals to access services, especially at a public entity.

Edit 04144: Inter-year Patients questioned - On Health Care for the Homeless - A large change in Mental Health patients from the prior year is reported on Line 20 Column C. (PY =(302) , CY = (201)). Please correct or explain.

Related Tables: Table 5(HCH)

Jim Beaumont (Health Center) on 2/15/2017 4:25 PM EST: The HCH/FH Program initiated a Street/Field Medicine Program this year, which included having mental health staff with the team in the field. This enable us to reach many more homeless with mental health services. In addition, there is a continual increased emphasis on screening all patients for depression and making the appropriate referrals. This also supports the increase in mental health patients.

Edit 05139: Inter-year Patients questioned - On Migrant Health Center - A large change in Vision Services patients from the prior year is reported on Line 22d Column c (PY = (67) , CY = (34)). Please correct or explain.

Related Tables: Table 5(MHC)

Jim Beaumont (Health Center) on 2/15/2017 4:27 PM EST: Attributable to the overall decrease in MH patients.

Edit 05141: Inter-year Patients questioned - On Health Care for the Homeless - A large change in Vision Services patients from the prior year is reported on Line 22d Column c (PY = (420) , CY = (366)). Please correct or explain.

Related Tables: Table 5(HCH)

Jim Beaumont (Health Center) on 2/15/2017 4:30 PM EST: This difference is within typical year-to-year fluctuations in access by the homeless for non-primary care services (~-14%).

Edit 04148: Inter-year Patients questioned - On Health Care for the Homeless - A large change in Other Professional Services patients from the prior year is reported on Line 22 Column C. (PY = (176) , CY = (115)). Please correct or explain.

Related Tables: Table 5(HCH)

Jim Beaumont (Health Center) on 2/15/2017 4:34 PM EST: This difference is not necessarily unusual for the homeless population in a non-primary care service. In addition, with mobile services and the advent of our Street Medicine program, if possible, more issues are being addressed at that initial point of contact in order to minimize the risk of the patient not showing for a referral appointment.

Edit 04150: Inter-year Patients questioned - On Health Care for the Homeless - A large change in Enabling Services patients from the prior year is reported on Line 29 Column C. (PY = (862) , CY = (1,809)). Please correct or explain.

Related Tables: Table 5(HCH)

Jim Beaumont (Health Center) on 2/15/2017 6:47 PM EST: Program increased contracted services for Enabling services for the year, adding 4 new contractors. This substantially increased the number of individuals who we were able to provide services to.

Edit 04682: Inter-year Patients questioned - On Migrant Health Center - A large change in Enabling Services patients from the prior year is reported on Line 29 Column C. (PY = (169) , CY = (222)). Please correct or explain.

<p>Edit 00158: PA Productivity Questioned - A significant change in Productivity of PAs on Line 9b (5,060) is reported from the prior year (3,060). Please check to see that the FTE and visit numbers are entered correctly.</p>

<p>Edit 04147: Inter-year Patients questioned - On Universal - A large change in Other Professional Services patients from the prior year is reported on Line 22 Column C. (PY = (228) , CY= (150)). Please correct or explain.</p>
<p>Related Tables: Table 5(UR)</p>
<p>Jim Beaumont (Health Center) on 2/15/2017 4:50 PM EST: This difference is not necessarily unusual for the homeless and farmworker population in a non-primary care service. <p>Edit 06089: Teen Pregnancy in Question - The number of pregnant teens reported on Table 6B appears high. Please correct or explain.</p>
<p>Related Tables: Table 6B, Table 3A(UR)</p>
<p>Linda Nguyen (Health Center) on 2/15/2017 6:16 PM EST: There seems to be an increase in female teen patients in population and the small sample size means the number can fluctuate year to year</p>
<p>Edit 05773: Line 10 Universe in Question - You are reporting (184.49)% of total possible medical patients in the universe for the Childhood Immunization measure (line 10 Column A). This appears high compared to estimated medical patients in the age group being measured. Please review and correct or explain.</p>
<p>Related Tables: Table 6B, Table 3A(UR), Table 4(UR), Table 5(UR)</p>
<p>Linda Nguyen (Health Center) on 2/15/2017 6:29 PM EST: More kids appear to be born in the last half of this year versus kids born last half of last year as the months do not correspond. Measure 6B is based off of calendar year age and the other tables counts from June 30th.</p>
<p>Edit 05785: Line 16 Universe in Question - Based on the universe for total Patients with persistent Asthma on line 16 column A we estimate a prevalence of (10.7)%. This appears high compared to estimated medical patients in the age group being measured. Please review and correct or explain.</p>
<p>Related Tables: Table 6B, Table 3A(UR), Table 4(UR), Table 5(UR)</p>
<p>Arthur Stickgold (Reviewer) on 2/26/2017 7:52 PM EST: 5. Table 6B. In 2016 the criteria for the Asthma measure switched from 5 through 40 year olds to 5 through 64 year olds. We would expect a larger number of patients to be in the universe but your universe is virtually unchanged (500 vs. 557). Please review your data and ensure that you have looked at the correct population for the universe.</p>
<p>Edit 05894: Missing Clinical Measure - You report no patients newly diagnosed with HIV. Please confirm that this is the case. If not, please complete Line 20.</p>
<p>Related Tables: Table 6B, Table 3A(UR)</p>
<p>Linda Nguyen (Health Center) on 2/15/2017 6:36 PM EST: There were 0 patients diagnosed with HIV at our health center, they were all diagnosed at other health centers.</p>
<p>Edit 06159: Line 21 Universe in Question - You are reporting (101.84)% of total possible medical patients in the universe for Patients Screened For Depression and Follow-up (Line 21 Column A). This appears high compared to estimated medical patients in the age group being measured. Please review and correct or explain.</p>
<p>Related Tables: Table 6B, Table 3A(UR), Table 4(UR), Table 5(UR)</p>
<p>Linda Nguyen (Health Center) on 2/15/2017 6:35 PM EST: The number appears to be high because of the overlapping months from 3A table counting from June 30th as opposed to using calendar year for 6B tables.</p>
<p>Edit 06094: Dental Patient Universe in Question - You are reporting (103.8)% of total possible dental patients in the universe for Patients with Sealant To First Molars (Line 22 Column A). This appears high compared to estimated dental patients in the age group being measured. Please review and correct or explain.</p>
<p>Related Tables: Table 6B, Table 3A(UR), Table 4(UR), Table 5(UR)</p>
<p>Linda Nguyen (Health Center) on 2/15/2017 6:45 PM EST: This appears to be due to the small sample size, causing variations from year to year.</p>

Table 7-Health Outcomes and Disparities

<p>Edit 03959: Low Birthweights Questioned - The White LBW and VLBW percentage of births reported appears low. Please correct or explain. CY (0)%;PY National Average (6.6)%</p>
<p>Related Tables: Table 7</p>
<p>Arthur Stickgold (Reviewer) on 2/26/2017 7:54 PM EST: universe consists of 51 patients -- 2 small</p>

Edit 05093: Diabetes Universe in question - The universe of Other Pacific Islander adults aged 18-75 with diabetes is outside the typical range based on the number of adults aged 18-75 reported on Table 3A adjusted for the same race. Please correct or explain.

Edit 03729: Costs Higher Than Reasonable for Staff Only - Medical Staff Costs on Table 8a, Line 1 are higher than typical salaries alone for the FTE reported on Table 5 Line 15. Please correct or explain. (Cost/FTE (293,131.01); PY National Average (91,655.3))

Related Tables: Table 8A, Table 5(UR)

Arthur Stickgold (Reviewer) on 2/26/2017 8:03 PM EST: 7. Table 8A. Who do you contract with for physician time? How many visits or dollars are involved?? Do we need to develop an FTE workaround? Productivity numbers are already scary low – if we add in any significant number of providers it might get strange.

Edit 04117: Cost Per Visit Questioned - Total Medical Care Cost Per Visit is substantially different than the prior year. Current Year (526.8); Prior Year (395.29).

Related Tables: Table 8A, Table 5(UR)

Jim Beaumont (Health Center) on 2/15/2017 5:02 PM EST: Being in a high cost-of-living locale, along with being one of the stronger recovery areas from the 2009 recession, we would expect to see stronger increases cost data year to year. In addition, we saw a marked decrease in physician productivity (visits per FTE) which would generally indicate that the physicians are spending more time with the patient in each visit, resulting in higher per visit costs.

Edit 04126: Cost Per Visit Questioned - Mental Health Cost Per Visit is substantially different than the prior year. Current Year (876.12); Prior Year (754.15).

Jim Beaumont (Health Center) on 2/15/2017 5:58 PM EST: The local indigent care program is a broad coverage program for everyone who does not otherwise qualify for other health coverage, typically federal programs. This program, ACE (Affordable Care for Everyone) provides coverage that is usually better than the sliding fee discount program. There is no intrinsic relationship between the two, so it is not unusual for the value received from the local indigent care program (ACE) would be significantly higher than the total of sliding fee discounts.
