

Help Prevent Tooth Decay!

Join the growing number of parents helping their kids stay healthy by completing the Kindergarten Oral Health Assessment (KOHA)!

SAN MATEO COUNTY HEALTH
**FAMILY HEALTH
SERVICES**

Did you know?

In 2024–2025, 39% of students from lower-income schools in San Mateo County had untreated cavities. That's **twice** as many as students from other schools! This shows how important it is to help kids get dental care early.

Take Action

1. Download the form
2. Schedule a dental visit
3. Complete the screening
4. Return it to the school!

Screenings are important!

KOHA helps your child:

- Spot cavities before they worsen
- Get timely treatment
- Start school ready to learn & smile!

Learn more about KOHA

Your participation matters

Early detection starts with KOHA. Don't delay!
