Implementation Highlights
Implementation Highlight: FSP Workgroup

• Full Service Partnership Workgroup
  • Provided recommendations for minimum service requirements, service improvements
  • Request for Proposal to release soon

Bradley was discharged from his last psychiatric hospitalization in May 2021. Upon his discharge, Bradley was faced with many challenges such as living in a group setting and having to start from scratch with his belongings and lifestyle. Bradley has since signed the lease for his own apartment and continues to engage with FSP multiple times a week and has become medication compliant along with discovering how to live independently at 72 years old. He has engaged with his peer mentor and enjoys outing in the community during his meetings. Bradley continues to draw “doodles” to show his team what his life is like through his eyes. Bradley will tell you “this is all because of Telecare” and constantly reminds his team of his appreciation to turn “a creep into a prince”.
