Did You Know?

- Chinese Americans have been found to have the highest lifetime prevalence rate of depression among Asian American group.
- Foreign-born Chinese Americans have higher suicide rates than U.S.-born Chinese Americans.
- Among women ages 15-24, Asian American girls have the highest suicide mortality rates across all racial/ethnic groups.
- The suicide rate among elderly Chinese American women (over age of 65 years) is 10 times higher than the rate among Caucasian elderly women.
- About 5% of the general population suffers from a gambling addiction, but in the Chinese American community, 20% are problem gamblers.

The California Department of Mental Health’s California Reducing Disparities Project (CRDP) reports a severe deficiency in mental health care services for Asian Americans citing a lack of access to care, language barriers, and a cultural stigma against mental health in the Asian American community. Participants in a recent focus groups conducted by the CRDP Asian Pacific Islander Population Strategic Planning Workgroup (SPW) stated the following barriers when they attempted to seek help for themselves or for their family:

1. Lack of culturally competent staff and services.
2. Issues related to stigma, shame, discrimination, confidentiality, and reluctance to hear the truth.
3. Lack of language skills.
4. Lack of financial resources.
5. Transportation.
6. Complexity of healthcare systems and paperwork.
7. Not comfortable with non-Asian providers.
8. Unfamiliarity with Western treatment model.

Despite being viewed as a “model community,” Asian Americans face many of the same mental health problems as other groups. Evidence shows high rates of addiction, gambling, and family violence.

Some studies have indicated that Asian Americans who use mental health services are more severely ill than other groups. Evidence suggests this is because many Asian Americans delay seeking treatment because of the stigma associated with using mental health services and cultural and linguistic barriers to access.

Agenda

10:30 Welcome
- Dave Pine, Board President, San Mateo County Board of Supervisors
- Lisa Chung, Senior District Representative, Office of State Senator
- Jerry Hill, 13th District

10:45: Digital Stories
