SAFER CLEANING WITH SIMPLE, AFFORDABLE INGREDIENTS

What You Need

Lemon Juice or White Vinegar
Cuts grease and grime (don’t use undiluted vinegar if you have asthma).

Liquid Soap
Free of antibacterial (triclosan) or sodium lauryl sulfate (detergent), Castile soap is a good option.

Baking Soda
Removes stains and grime, acts like scouring powder.

Hydrogen Peroxide (3% Solution)
Works like a disinfectant and removes stains.

Microfiber Cloth
Damp microfiber removes dirt AND germs.

Scrub Brush
Helps remove stains and grime.

Recipes

All-purpose Cleaner: Countertops, Floors, Appliances, Walls and More
• Liquid soap and warm water; lemon juice optional.
• Liquid soap, 1 tbsp. baking soda, lemon juice and water.
• 1 part white vinegar and 1 part water.

Windows, Glass and Mirrors
• Wipe with a damp microfiber cloth.
• 1 part white vinegar or lemon juice and 1 part water.

Sink, Tub and Tile
• Creamy scrub: 2 cups baking soda, half cup liquid soap and some lemon juice.
• Mix liquid soap, baking soda and 2 capfuls of hydrogen peroxide (3% solution).
• Soapy water and a good scrub brush.

Toilet
• Sprinkle bowl with baking soda, then drizzle with vinegar, let soak for 30 minutes and scrub with brush.
• Wipe toilet seat with hydrogen peroxide (3% solution).

Mold and Mildew Remover
• Allow white vinegar to sit on moldy surface, then clean with hot soapy water.
• Mix liquid soap, baking soda, and 2 capfuls of hydrogen peroxide. Apply to surface for 30 minutes, then clean with soapy water.

Drain Cleaner
• Pour half cup baking soda down drain and follow with half cup vinegar. After 15-30 minutes, follow with 2 quarts boiling water.

Oven Cleaner
• Apply paste of 1/4 cup baking soda, 2 tbsp. salt and hot water and let sit 5 minutes, then clean with scrub brush.

Steps to a Healthy Home

Pests need water, food, and shelter to live, just like you. Here’s what you and your landlord can do to get rid of them and prevent them from invading your home.

These work for fighting mold too!
Take away pests’ food, water, and shelter

Reduce clutter, store food in sealed containers and remove recyclables and garbage frequently.

Clean crumbs, spills and grease with safer, less toxic cleaning products.

Reduce moisture by reporting drips and leaks to your landlord.

Avoid sprays, foggers, and bombs; they kill few pests, push them back into walls, and don’t reach hiding places.

Reduce moisture

Ventilate often – open curtains and windows; use fans when cooking and bathing.

Reduce clutter in closets by storing items in plastic containers, raising items off floor.

Separate furniture and appliances from walls.

Dry moisture from windows and walls after bathing.

Ask your landlord to seal out pests and reduce moisture

Seal gaps, crevices, and holes in walls, floors, and baseboards, and around utility lines and electrical outlets.

Repair drips and leaks; seal cracks and holes around plumbing and deteriorated tub grout.

Maintain gutters so water flows away from your home.

Assure kitchen and bathroom fans function properly and effectively.

We’re here to talk to you!

Call or email Cynthia Knowles at (650) 207-3115 or cknowles@smcgov.org for more information on how to prevent pests and mold.
