Testing and tracing are completely private! You will not be asked for your social security number or your immigration status.

The Public Health Department and its community partners will contact people who test positive for COVID-19.

We “trace” or find others who have been in recent close contact with them.

Contacts are asked to quarantine themselves even if they are not showing symptoms.

If they are showing symptoms or have already tested positive they are asked to isolate themselves to prevent the spread of COVID to others.

Contacts will be assessed and offered testing but they will NOT be told your name.

Answering the phone can save lives.

Dial 2-1-1 for non-emergency, non-medical calls
