

Go-Live 07/15/2015

Description:

The Telemetry Order workflow will listen for Telemetry Order entered in Soarian. To easily manage and review the Telemetry order, a reminder is placed on the Alert  section at the Census/Worklist. This is a patient-specific alert. On this workflow, the Telemetry order is set for 72 hours. A reminder will display on the Alert section 4 hours before the set expiration. The Alert will auto- withdraw after 12 hours with NO action and will reappear 64 hours after the auto withdraw if there's still NO action at this time. **The actual Telemetry Order will NOT be discontinued until a Provider will discontinue it.**

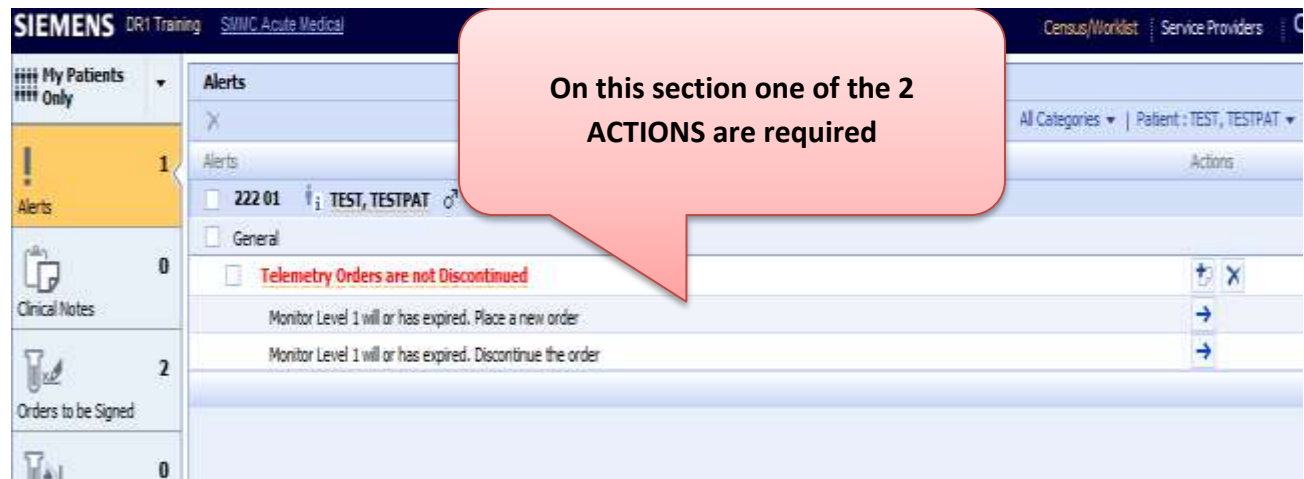

Details:

- The Alerts  display on the Worklist. The number indicates the total number of patients with Alerts.

The screenshot shows the Siemens DR3 Training interface. On the left sidebar, the 'Alerts' icon is circled in red, with a '1' next to it. A red arrow points from this icon to a patient row in the main table. A red callout bubble points to the patient row with the text 'Patient with Alert'. The patient row shows MR 1006890, Location 2B, Bed 222 01, and Patient Name TEST, TESTPAT. There is a red alert icon next to the patient name.

- When you click on the Alert icon (), the specific Alert will display as shown below.

The screenshot shows the Siemens DR1 Training interface. The 'Alerts' section is active, showing details for patient 222 01 TEST, TESTPAT. A red callout bubble points to the alert details with the text 'On this section one of the 2 ACTIONS are required'. The alert details show a red warning: 'Telemetry Orders are not Discontinued'. Below this, there are two actions: 'Monitor Level 1 will or has expired. Place a new order' and 'Monitor Level 1 will or has expired. Discontinue the order', each with a right-pointing arrow.

Telemetry Order Workflow/Alert

Suggested Action on the **“Telemetry Orders are not Discontinue”** are as follows;

- By clicking on  on the **“Monitor Level 1 will or has expired. Place a new order”**, the Telemetry will be automatically reordered.
- By clicking on  on the **“Monitor Level 1 will or has expired. Discontinue the order, the Telemetry will be automatically discontinued.**

Sample order below....

The screenshot shows a medical order management interface. At the top, there are buttons for '+Add Order', 'Transfer Level of Care', 'Admission Reconciliation (incomplete)', and 'Discharge Reconciliation'. Below this is a 'Current' tab with a dropdown for 'Past 3 Days' and 'Sort Options'. To the right of the 'Current' tab are buttons for 'Discontinue', 'Renew', and 'Complete'. The main area displays a list of orders under two categories: 'Dietary' and 'Patient Care'. Under 'Dietary', there are two orders: 'Diet, Consistent Carbohydrate All Meals' and 'Diet NPO All Meals'. Under 'Patient Care', there are two orders, both with the text: 'Monitor Level 1: Cannot go off the unit without a monitor. Active management of arrhythmias first 24 hours post-chest pain admission -First 72 hours post-MI or till stable -First 24 hours post-permanent pacemaker insertion - Intravenous dobutamine, dopamine -Other Conditions with high risk Continuous'.

Important Reminder:

- The purpose of the Workflow is to remind Physicians/Providers that the patient is still on a Telemetry Monitor that needs to be addressed to continue or discontinue monitoring.
- **The actual Telemetry Order will NOT be discontinued until a Provider will discontinue it.**
- The reminder will display on the Alert section at the Census/Worklist on both Nursing and Physicians but ONLY Physicians need to take action on it.
- The Alert will be withdrawn if either one of the actions (Place a new order or Discontinue the order) are performed.
