BHRS QM Timely Access Training Schedule

Training Descriptions

Both the Webinars and Workshops are for both MH and SUD staff, BHRS programs and Contract Agencies.

Webinars: These are required for all staff and will cover the key concepts and decision-making points that are part of the Timely Access requirement.

Workshops: These are optional smaller trainings that are focused on the technical aspect of filling out the Timely Access forms in Avatar NX. No need to attend all – they will cover the same content.

Webinars (Required)
